However, to be eligible for assistance, the crop subject to the loss must have been planted before February 28, 2007 or, in the case of prevented planting or other total loss, would have been

planted before February 28, 2007 in the absence of the damaging weather or any related condition.

(b) **ELECTION OF CROP YEAR.**—If a producer incurred qualifying crop losses in more than one of the 2005, 2006, or 2007 crop years, the producer shall elect to receive assistance under this section for losses incurred in only one of such crop years. The producer may not receive assistance under this section for more than one crop year.

(c) **ADMINISTRATION.**—

(1) **IN GENERAL.**—Except as provided in paragraph (2), the Secretary of Agriculture shall make assistance available under this section in the same manner as provided under section 815 of the Agriculture, Rural Development, Food and Drug Administration and Related Agencies Appropriations Act, 2001 (Public Law 106-387; 114 Stat. 1549A-55), including using the same loss thresholds for quantity and economic losses as were used in administering that section, except that the payment rate shall be 50 percent of the established price, instead of 65 percent.

(2) **LOSS THRESHOLDS FOR QUALITY LOSSES.**—In the case of a payment for quality loss for a crop under subsection (a), the loss thresholds for quality loss for the crop shall be determined under subsection (d).

(d) **QUALITY LOSSES.**—

(1) **IN GENERAL.**—Subject to paragraph (3), the amount of a payment made to producers on a farm for a quality loss for a crop under subsection (a) shall be equal to the amount obtained by multiplying—

(A) 65 percent of the payment quantity determined under paragraph (2); by

(B) 50 percent of the payment rate determined under paragraph (3).

(2) **PAYMENT QUANTITY.**—For the purpose of paragraph (1)(A), the payment quantity for quality losses for a crop of a commodity on a farm shall equal the lesser of—

(A) the actual production of the crop affected by a quality loss of the commodity on the farm; or

(B) the quantity of expected production of the crop affected by a quality loss of the commodity on the farm, using the formula used by the Secretary of Agriculture to determine quantity losses for the crop of the commodity under subsection (a).

(3) **PAYMENT RATE.**—For the purpose of paragraph (1)(B) and in accordance with paragraphs (5) and (6), the payment rate for quality losses for a crop of a commodity on a farm shall be equal to the difference between—

(B) the per unit market value of the units of the crop affected by the quality loss.

(4) **ELIGIBILITY.**—For producers on a farm to be eligible to obtain a payment for a quality loss for a crop under subsection (a), the amount obtained by multiplying the per unit loss determined under paragraph (1) by the number of units affected by the quality loss shall be at least 25 percent of the value that all affected production of the crop would have had if the crop had not suffered a quality loss.

(5) **MARKETING CONTRACTS.**—In the case of any production of a commodity that is sold pursuant to one or more marketing contracts (regardless of whether the contract is entered into by the producers on the farm before or after harvest) and for which appropriate documentation exists, the quantity designated in the contracts shall be eligible for quality loss assistance based on the one or more prices specified in the contracts.

(6) **OTHER PRODUCTION.**—For any additional production of a commodity for which a marketing contract does not exist or for which production continues to be owned by the producer, quality losses shall be based on the average local market discounts for reduced quality, as

determined by the appropriate State committee of the Farm Service Agency.

(7) **QUALITY ADJUSTMENTS AND DISCOUNTS.**—The appropriate State committee of the Farm Service Agency shall identify the appropriate quality adjustment and discount factors to be considered in carrying out this subsection, including—

(B) The value of the crop that was not lost (if any), as estimated by the Secretary.

(f) **ELIGIBILITY REQUIREMENTS AND LIMITATIONS.**—The producers on a farm shall not be eligible for assistance under this section with respect to losses to an insurable commodity or noninsurable commodity if the producers on the farm—

(2) in the case of a noninsurable commodity, did not file the required paperwork, and pay the administrative fee by the applicable State filing deadline, for the noninsurable commodity under section 196 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 7333) for the crop incurring the losses; or

(3) were not in compliance with highly erodible land conservation and wetland conservation provisions.

(g) **TIMING.**—

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 1591) making emergency supplemental appropriations for the fiscal year ending September 30, 2007, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effects of the action agreed upon by the managers and recommended in the accompanying conference report.

Report language included by the House in the report accompanying H.R. 1591 (H. Rept. 110-60) and included by the Senate in the report accompanying S. 965 (S. Rept. 110-37) should be complied with unless specifically addressed in this statement of the managers. The statement of the managers, while repeating some report language for emphasis, is not intended to negate the language referred to above unless expressly provided herein.

The conference agreement designates amounts in title I as emergency requirements pursuant to section 402 of H. Con. Res. 95 (109th Congress) and as making appropriations for contingency operations directly related to the global war on terrorism and other unanticipated defense-related operations pursuant to section 402 of H. Con. Res. 376 (109th Congress). Further, the agreement designates amounts in titles II, III, V, and VI as emergency requirements pursuant to section 402 of H. Con. Res. 95 (109th Congress) and pursuant to section 501 of H. Con. Res. 376 (109th Congress). The House proposed designations under H. Con. Res. 376 on an item-by-item basis, while the Senate included designations under H. Con. Res. 95 title-by-title.

TITLE I—SUPPLEMENTAL APPROPRIATIONS FOR THE GLOBAL WAR ON TERROR

CHAPTER 1—DEPARTMENT OF AGRICULTURE

FOREIGN AGRICULTURAL SERVICE

PUBLIC LAW 480 TITLE II GRANTS

The conference agreement provides \$460,000,000, to be available until expended, for Public Law 480 Title II grants, instead of \$450,000,000 as proposed by the House and \$475,000,000 as proposed by the Senate.

The Farm Security and Rural Investment Act of 2002 required the establishment of a micronutrient fortification program relating to the utilization of foods for humanitarian assistance programs such as title II of Public Law 480. The conferees encourage the Secretary of Agriculture to move forward with such a program. The conferees direct that any such funds used for this purpose during fiscal year 2007 should be used for internal federal agency operations to develop a framework for this program and not be used for the purpose of executing any grant, contract, or cooperative agreement with a non-federal entity.

GENERAL PROVISION THIS CHAPTER

SEC. 1101. The conference agreement provides \$40,000,000, instead of \$82,000,000 as proposed by the Senate, for replenishment of the Bill Emerson Humanitarian Trust.

The conferees direct the Secretary to provide quarterly reports to the Committees on Appropriations of the House of Representatives and the Senate on the available cash, amount of commodity by type, and detail of disbursements made during that quarterly period.

CHAPTER 2—DEPARTMENT OF JUSTICE

LEGAL ACTIVITIES

SALARIES AND EXPENSES, GENERAL LEGAL ACTIVITIES

The conference agreement includes \$1,648,000 for General Legal Activities for the Criminal Division as proposed by the House, instead of \$4,093,000 as proposed by the Senate and requested by the President. The funds are provided for litigation support services to the Special Inspector General for Iraqi Reconstruction for ongoing investigations and cases involving corruption in the reconstruction of Iraq. The conference agreement does not include \$2,445,000 as requested by the President and as proposed by the Senate to create Iraq and Afghanistan Support Units within General Legal Activities, Criminal Division. While the conferees support these activities, they can be provided for with funds available to the Secretary of State.

SALARIES AND EXPENSES, UNITED STATES ATTORNEYS

The conference agreement includes \$5,000,000 for the United States Attorneys as proposed by the House and requested by the President, instead of \$12,500,000 as proposed by the Senate. The funds are provided for extraordinary litigation expenses associated with terrorism prosecutions.

UNITED STATES MARSHALS SERVICE

SALARIES AND EXPENSES

The conference agreement includes \$6,450,000 for the United States Marshals Service, instead of \$2,750,000 as proposed by the House and \$32,500,000 as proposed by the Senate. The funds are provided for security at high-threat terrorist trials in the United States and to support judicial and witness security in Afghanistan.

The conference agreement does not include a rescission of \$15,000,000 from funds made available in this Act for Department of State Educational and Cultural Exchange Programs, as proposed by the Senate.

The conferees are aware of substandard conditions in space occupied by U.S. Marshals Service employees in the Moultrie Courthouse Building in the District of Columbia. The Senate bill included funds within chapter 2 of title I for the U.S. Marshals to address some of the problems, but the conference agreement does not include these funds. The conferees direct the U.S. Marshals and the District of Columbia Courts to work together in a coordinated manner to develop a renovation and improvement plan that addresses these issues. The conferees believe that the Committees on Appropriations should consider progress in these plans when developing the fiscal year 2008 appropriations bills.

The conferees also direct that the Inspector General of the Department of Justice shall conduct a review of the health, safety, and security conditions in the Moultrie Courthouse Building space occupied by the U.S. Marshals. Not later than 90 days after the date of the enactment of this Act, the Inspector General of the Department of Justice shall submit to the Committees on Appropriations a written report that contains the

findings of the review and includes recommendations, as may be appropriate.

NATIONAL SECURITY DIVISION
SALARIES AND EXPENSES

The conference agreement includes \$1,736,000 for the National Security Division for investigations and prosecutions as proposed by the House and Senate.

FEDERAL BUREAU OF INVESTIGATION
SALARIES AND EXPENSES

The conference agreement includes \$268,000,000 for the Federal Bureau of Investigation (FBI) instead of \$118,260,000 as proposed by the House and as requested by the President and \$348,260,000 as proposed by the Senate. Funding is provided for counterterrorism and weapons of mass destruction operations and support requirements.

The conferees concur with the language in the Senate report regarding the March 2007 report by the Office of Inspector General (OIG) regarding the FBI's use of national security letters. The conferees are extremely concerned by the OIG report and the failings of the FBI to correct the actions earlier in

the investigation. The conference agreement includes \$10,000,000 as proposed by the Senate to ensure that the Inspector General's recommendations are implemented by the FBI in an expeditious manner. The conference agreement includes bill language transferring \$500,000 to the OIG from the FBI for continued audits and investigations related to national security letters.

DRUG ENFORCEMENT ADMINISTRATION
SALARIES AND EXPENSES

The conference agreement includes \$12,166,000 for the Drug Enforcement Administration (DEA) instead of \$8,468,000 as proposed by the House and as requested by the President and \$25,100,000 as proposed by the Senate. The funds provided above the amount requested by the President are provided to hire additional DEA special agents and support personnel related to the Global War on Terror. The conferees concur with language in the House report directing the DEA Administrator to submit a report on a plan to target and arrest Afghan Drug Kingpins.

BUREAU OF ALCOHOL, TOBACCO, FIREARMS AND
EXPLOSIVES

SALARIES AND EXPENSES

The conference agreement includes \$4,000,000 for the Bureau of Alcohol, Tobacco, Firearms and Explosives, as proposed by the House and the Senate and as requested by the President.

FEDERAL PRISON SYSTEM
SALARIES AND EXPENSES

The conference agreement includes \$17,000,000 for the Federal Prison System, as proposed by the House and the Senate and as requested by the President.

CHAPTER 3

DEPARTMENT OF DEFENSE—MILITARY

The conference agreement provides \$95,528,670,000 for the Department of Defense, instead of \$95,529,712,000, as proposed by the House, and \$93,532,793,000, as proposed by the Senate.

The conferees direct the Secretary of Defense to provide a report to the congressional defense committees within 30 days after the date of enactment of this legislation on the allocation of the funds within the accounts listed in this chapter. The Secretary shall submit updated reports 30 days after the end of each fiscal quarter until funds listed in this chapter are no longer available for obligation. The conferees direct that these reports shall include: a detailed accounting of obligations and expenditures of appropriations provided in this chapter by program and sub activity group for the continuation of the war in Iraq and Afghanistan; a listing of equipment procured using funds provided in this chapter. The conferees expect that in order to meet unanticipated requirements, the Department of Defense may need to transfer funds within these appropriations accounts for purposes other than those specified in this report. The conferees direct the Department of Defense to follow normal prior approval reprogramming procedures should it be necessary to transfer funding between different appropriations accounts in this chapter.

MINE RESISTANT AMBUSH PROTECTED VEHICLES (MRAPs)

The amended supplemental budget request includes \$1,832,300,000 for Mine Resistant Ambush Protected (MRAPs) Vehicles. These vehicles provide superior protection to our troops from Improvised Explosive Devices (IEDs). Recognizing the survivability enhancements brought to our warfighters by MRAPs, Congress previously appropriated \$592,000,000 for MRAPs in fiscal year 2007. Since IEDs continue to be the biggest threat to our troops in theater, the conferees believe it is imperative that these critical force protection items be provided to the warfighter as quickly as possible. Therefore, based on the most current information provided by the military services, the conferees

provide \$1,200,000,000 above the request for a total of \$3,032,300,000 for MRAPs in the conference agreement. Further, the conferees designate MRAPs as a congressional interest item. The table below delineates MRAP funding in the conference agreement by appropriations account.

Given this program's critical importance, the conferees expect funds to be placed on contract expeditiously and direct the military services to jointly report to the congressional defense committees no later than 30 days after the enactment of this Act on the MRAP program's status, requirements, and the execution of funds provided in the conference agreement. Further, the conferees direct the services to provide updates to the congressional defense committees every 30 days thereafter until all funds provided in the conference agreement are fully obligated.

The conference agreement provides \$13,507,993,000 for Military Personnel, instead of \$ 13,566,940,000 as proposed by the House, and \$13,435,445,000 as proposed by the Senate. The conferees provide \$1,148,369,000 above the President's request to fully fund all identified shortfalls for Basic Allowance for Housing for the remainder of fiscal year 2007.

The conferees are encouraged by the recent success of the Armed Forces to meet or ex-

ceed their established recruiting and retention goals and urge the Services to continue pursuing innovative and cost-effective programs to attract and retain high-quality personnel. However, recruiting and retaining challenges still exist, particularly within highly specialized occupational disciplines.

For this reason, the conference agreement fully funds the supplemental request for recruiting and retention incentives and pro-

vides an additional \$10,000,000 to specific reserve components that identified recruitment and retention shortfalls.

EXPEDITIONARY VIRTUAL NETWORK (EVNO)

The conference agreement deletes funds requested within the Defense Information Systems Agency for the expeditionary virtual network. The conferees direct that these activities shall be funded within funds made available in this Act for the Iraq Security Forces Fund.

SOAR VIRTUAL SCHOOL DISTRICT

The conferees direct that the Deputy Undersecretary of Defense for Military Community and Family Policy shall release a request for proposal as soon as practicable for funding provided in the fiscal year 2007 Defense Appropriations Act for Student Online Achievement Resources (SOAR Virtual School District), an Internet-based initiative designed to assist children from military families reap the greatest benefit from their public education, especially as families relocate and students move from school to school. This effort shall involve online assessments to identify strengths and weaknesses in both literacy and math and will be provided by a teacher education program of an institution of higher education that has experience working with teachers to provide curricula for children of Armed Forces personnel. Further, this project shall link schools through a "virtual school district," providing a vehicle by which a student's individual performance records can transfer to a student's new school.

FAMILY ADVOCACY PROGRAMS

The conference agreement provides \$10,000,000 for Family Advocacy Programs,

instead of \$17,000,000 as proposed by the House. Of the additional amounts provided, \$4,000,000 is to fund initiatives to bolster Guard and Reserve family pre-deployment and post deployment support programs. These initiatives should utilize Joint Reserve & Guard Family Assistance Centers. The conferees also provide \$6,000,000 to support the child care needs of deployed Guard and Reserve members in their local communities, to include respite and emergency child care.

The conferees also are aware of and concerned about the growing need for family members to have access to professional counseling to help alleviate the mental stresses associated with deployments. At select bases around the country, it has been reported that children of service members are experiencing higher truancy rates and falling grades in school. As such, the conferees urge the family advocacy programs to work with the Department's Health Affairs office, specifically the Defense Health Program, to coordinate efforts to ensure that counseling is provided to all family members of the active duty and reserve component members on deployment or preparing for deployment overseas.

GLOBAL TRAIN AND EQUIP

The conference report does not contain an emergency appropriation requested by the Administration for Global Train and Equip authorized under section 1206 of the Fiscal Year 2006 National Defense Authorization Act. Based upon discussions with the Depart-

ment of Defense, the conferees understand that the Department, working with other federal agencies, has identified requirements associated with Global Train and Equip activities, and is developing a reprogramming request for consideration by the congressional defense committees. The conferees await such a request and anticipate favorable consideration of the reprogramming, provided that the sources of funds meet the committees' approval.

HANDGUN REPLACEMENT STUDY

The conferees provide \$5,000,000 only for a study that examines joint sidearm requirements (including service-unique requirements, as appropriate), the M9 9mm handgun's capabilities (including its lethality), and handgun and ammunition alternatives that address these requirements. The conferees understand that it will be necessary to purchase up to 50 handguns and associated ammunition to conduct this study. In order to inform deliberations on the fiscal year 2008 appropriations bill for the Department of Defense, the conferees direct that the results of the study be provided in a written report to the congressional defense committees by August 31, 2007.

IRAQ SECURITY FORCES FUND

The conference agreement includes \$3,842,300,000, the same level as proposed by both the House and the Senate for the Iraq Security Forces Fund. Within this amount, the conference agreement includes \$155,500,000 for assistance to the Government of Iraq to disarm, demobilize and reintegrate militias and illegal armed groups. The House had proposed to delete these funds.

The conference agreement modifies a general provision proposed by the House that required certain reports before the obligation of more than 50 percent of the funds made available under this heading.

The conference agreement deletes the withholding of funds under this heading until the reports are provided and, in lieu thereof, requires the submission of the aforementioned reports to the congressional defense committees. The conferees note the

pressing need for the data mandated in these reports and fully expect the Department of Defense and the Office of Management and Budget to submit these reports, and any updates thereto, within the timeframes identified in the provision.

JOINT IMPROVISED EXPLOSIVE DEVICE DEFEAT
FUND

The conference agreement provides \$2,432,800,000 for the Joint Improvised Explosive Device Defeat Organization (JIEDDO), as requested, and proposed by both the House and the Senate. Both chambers have expressed concerns with JIEDDO's management practices, and the conferees concur with the findings made by the respective Committees. The conferees direct the Joint Improvised Explosive Device Defeat Organization to adhere to the reporting requirements as set forth in Senate Report 110-37 and the direction and reprogramming re-

quirements as set forth in House Report 110-60.

The conferees agree to provide substantial resources to the JIEDDO in support of the prescribed objective to develop and field innovative solutions and countermeasures to mitigate the critical threat posed by improvised explosive devices. However, the conferees remain concerned with the organization's financial management practices, including its continued failure to provide a plan for obligation and expenditures for previously appropriated and for currently requested funding. The conferees are concerned that the organization is not effectively managing its resources to deliver effective

counter-IED solutions to theater. Furthermore, the conferees are concerned with the JIEDDO's inability to provide timely and detailed responses to the congressional defense committees' inquiries for specific information regarding its budget requests. The conferees will be hard-pressed to fully fund future budget requests unless the JIEDDO improves its financial management practices and its responsiveness.

AIRCRAFT COMBAT LOSSES

The conferees have agreed to fund procurement of aircraft to replace combat losses. The conference agreement includes funding for three F/A-18E/F aircraft to directly replace F/A-18 aircraft lost in combat and to fund a single EA-18G aircraft which is a functional replacement for an EA-6B Prowler combat loss. Additionally, funding is provided to bolster the readiness and capabilities of aviation assets operating in extremely high rates. As such, the conferees

agree to fund six UH-60 helicopters and five C-130 aircraft.

FUNDING FOR EFFORTS IN BASE BUDGET

The conferees agree to delete funding for procurement items that are better suited to receive funding through the normal budget process. Replacing obsolete computer equipment and installing non-emergency equipment modifications or upgrades should be funded as part of the base budget. The Department of Defense is encouraged to appropriately identify their needs so that only

emergency items are requested in the supplementals and routine procurements are funded in the normal budget process. Additionally, the Department is reminded that supplemental funding should not be requested for items that can not be executed in a timely fashion.

SINGLE CHANNEL GROUND AND AIRBORNE
RADIO SYSTEM (SINGARS) FAMILY

The conferees are concerned that the Army may not be using all the available and qualified industrial capacity to deliver funded quantities of SINGARS radios to units in the field. The conferees strongly encourage the Army to pursue aggressively the necessary industrial capacity to produce the needed SINGARS radios and to equip the

units of the Army, including the Army Reserve Components, in a timely manner. The conferees recommend \$458,709,000 for SINGARS radios, a reduction of \$75,000,000 from the amended budget request. Additionally, \$175,000,000 of the amount provided may not be obligated by the Army until 15 days after the Secretary of the Army provides a report to the congressional defense committees that includes an evaluation of

SINGARS capable commercial off-the-shelf tactical radios that can meet operational needs and that explains the Army's strategy to leverage available industrial capacity in order to produce the needed radios at a significantly faster rate.

^{1/} Reflects the official budget amendments for fiscal year 2007 submitted by the President on March 12, 2007.

^{2/} House action relative to the official fiscal year 2007 emergency supplemental request submitted as part of the fiscal year 2008 budget.

HANDGUN REPLACEMENT PROGRAM

The supplemental request includes \$89,800,000 to replace the Air Force M9 9mm handgun and associated ammunition. The conferees understand that the Army, Marine Corps, Navy, and Special Operations

Command procure the M9 9mm handgun as their standard issue sidearm. Therefore, the conferees believe that a replacement or upgrade to the 9mm handgun should address joint requirements. Since this coordination did not occur prior to the supplemental

budget submission, the conferees deny the requested funding for a single service replacement program. However, recognizing the importance of a reliable and lethal sidearm to the warfighter, the conferees provide \$5,000,000 only for a study that examines joint sidearm requirements (including service-unique requirements, as appropriate), the M9 9mm handgun capabilities (including its lethality), and handgun and ammunition alternatives that address these requirements. The conferees understand that it will be nec-

essary to purchase up to 50 handguns and associated ammunition to conduct this study. In order to inform deliberations on the fiscal year 2008 appropriations bill for the Department of Defense, the conferees direct that the results of the study be provided in a written report to the congressional defense committees by August 31, 2007.

GLOBAL BROADCAST SERVICE—RUCKSACK
PORTABLE RECEIVE SUITE

The conferees understand that additional research and development would further reduce the weight of the Global Broadcast Service—Rucksack Portable Receive Suite

(GBS—RPRS). Due to the premature request, the conferees deny funding for this item, without prejudice. The conferees encourage the Air Force to proceed with the development effort and intend to review the pro-

gram should a request be received for funding in fiscal year 2008.

/1 Reflects the official budget amendments for fiscal year 2007 submitted by the President on March 12, 2007

The conference agreement provides \$3,251,853,000 for the Defense Health Program, instead of \$2,789,703,000 as proposed by the House and \$2,466,847,000 as proposed by the Senate.

TRAUMATIC BRAIN INJURY (TBI) AND POST TRAUMATIC STRESS DISORDER (PTSD) TREATMENT AND RESEARCH

The conferees believe that, if a service member is correctly diagnosed with TBI or PTSD, the better chance he or she has of a full recovery. It is critical that health care providers are given the resources necessary to make accurate, timely referrals for appropriate treatment and that service members have high priority access to such services. Therefore, the conference agreement provides \$900,000,000 for access, treatment and research for TBI and PTSD. Of the amount provided, \$600,000,000 is for operation and maintenance and \$300,000,000 is for research, development, test and evaluation to conduct peer reviewed research.

By increasing funding for TBI and PTSD, the conferees believe that the Defense Department now will have significant resources to dramatically improve screening for risk factors, diagnosis, treatment, counseling, research, facilities and equipment to prevent or treat these illnesses.

If the Secretary of Defense determines that funds made available within the operation and maintenance account for the treatment of TBI and PTSD are excess to the requirements of the Department of Defense, the conference agreement provides the authority to transfer excess amounts to the Department of Veterans Affairs to be available only for the same purpose.

CARE GIVER SUPPORT PROGRAMS

The conference agreement provides \$12,000,000 for care giver support programs, to be allocated as recommended in House Report 110-60, in order to assist the military medical facilities' nurses and doctors who

are treating the wounded by ensuring they have sufficient stress prevention and management programs.

AMPUTEE HEALTH CARE

The conference agreement provides a total of \$61,950,000 for amputee health care. The additional monies, to be allocated consistent with House Report 110-60, will enhance health care services and operations at Walter Reed, Brooke Army Medical Center/Center for the Intrepid, Landstuhl Regional Medical Center and National Naval Medical Center—Balboa.

SUSTAINING THE MILITARY HEALTH CARE BENEFIT

When the fiscal year 2007 budget request was submitted, it assumed savings anticipated from legislation that would have significantly increased fees and premiums paid by military members. The legislation was not enacted by Congress. The conference agreement provides \$660,750,000 to fully fund the Defense Health Program for fiscal year 2007. The conferees strongly urge the Department to examine other ways to sustain the benefit without relying on Congress to enact legislation that would increase the out-of-pocket costs to the beneficiaries.

MILITARY HEALTH CARE BUDGET—“EFFICIENCY WEDGE”

The conference agreement provides \$500,000,000 in operation and maintenance and procurement funding to reverse “efficiency wedge” savings mandated by the Department of Defense. The monies are to be allocated consistent with Senate Report 110-37 and will return funding to appropriate levels within the Direct Care system and allow the services to address critical needs.

HEALTH CARE IN SUPPORT OF ARMY MODULAR FORCE CONVERSION AND GLOBAL POSITIONING

The conferees are concerned that the Army has been directed to cover costs associated with health care support of Army modular

force (AMF) conversion and global positioning. The cost of these movements is estimated at \$68,000,000 and will enable the Army to provide the capacity to meet increases in the demand for health care created as the Army repositions forces. This necessary funding is required to ensure that soldiers, particularly those returning from combat, and their families are able to access military health care.

The conferees direct the Assistant Secretary of Defense for Health Affairs and the Surgeon General of the Army to coordinate an effort and report back to the congressional defense committees by June 29, 2007, on how these anticipated costs will be funded to ensure soldiers and their families affected by AMF and global positioning will have access to the health care they deserve.

TRAUMATIC BRAIN INJURY

The conferees direct the Assistant Secretary of Defense for Health Affairs to submit a report to the congressional defense committees regarding the extent of, treatment of, and outreach to patients with traumatic brain injury, through military hospitals and outpatient clinics and their families. The report shall be submitted within 120 days after enactment of this Act, and it shall describe the Department's diagnosis and screening processes, communication procedures and policies for family members, and provide an accounting of funds budgeted and expended for this type of injury.

DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES, DEFENSE

The conference agreement provides \$254,665,000, as proposed by the Senate, instead of \$259,115,000 as proposed by the House.

The conference agreement on items addressed by either the House or the Senate is as follows:

CHAPTER 5

DEPARTMENT OF HOMELAND SECURITY

OFFICE OF THE UNDER SECRETARY FOR
MANAGEMENT

The conferees agree with the Senate's concern that the management and administrative challenges facing the Department will increase unless a stronger focus is placed on hiring, training, and maintaining career leaders. In particular, the conferees are concerned that the Department and its components will not be able to function effectively when the change in administration occurs in 2009. The conferees direct the Department to provide, by July 20, 2007, a report on senior staffing, as proposed by the Senate. The conferees further direct the Government Accountability Office to assess the strengths and weaknesses of the report within 90 days after the Department submits the report. In addition, the conferees provide \$900,000 in title IV of the bill for the Under Secretary for Management to award a grant or contract to the National Academy of Public Administration (NAPA) to undertake a study to compare the Department of Homeland Security's reported senior career and political staffing levels and senior career training programs with those of similarly structured cabinet-level agencies. NAPA is an independent, non-partisan organization chartered by Congress to assist Federal, State, and local governments in improving their effectiveness, efficiency, and accountability. The conferees direct the Department to execute such grant or contract no later than the July 20, 2007, report submission date, and for NAPA to submit its report within six months thereafter.

OFFICE OF THE CHIEF INFORMATION OFFICER

The Chief Information Officer is directed to submit to the Committees on Appropriations no later than 30 days after the date of enactment of this Act a report on the full costs to transition information to the Department of Homeland Security's primary data center. This report is to include, by departmental component: a schedule for data transition; costs for each fiscal year required to complete the transition; identification of items associated with the transition required to be procured and related procurement schedule; and identification of any transition costs provided in fiscal year 2007 or requested in the fiscal year 2008 President's budget. A report on the same elements for the data center to be selected in the summer of 2007 shall be submitted to the Committees on Appropriations no later than 30 days after a final selection has been made.

ANALYSIS AND OPERATIONS

The conferees provide an additional \$15,000,000 in support of the State and local fusion center program, instead of \$35,000,000 as proposed by the House. The Senate bill

contains no similar provision. These funds, along with amounts made available to date in fiscal year 2007, will allow DHS to support 35 fully-operational centers by the end of 2008.

Consistent with the House report, the conferees direct the Department's Chief Intelligence Officer to provide on-going, quarterly updates to the Committees on Appropriations, starting on July 1, 2007, that detail progress in placing DHS homeland security intelligence professionals in State and local fusion centers. These reports shall include: the qualification criteria used by DHS to decide where and how to place DHS intelligence analysts and related technology; total expenditures to support each center to date and during the most recent quarter of the current fiscal year, in the same categorization as materials submitted to the Committees on Appropriations on March 23, 2007; the location of each fusion center, including identification of those with DHS personnel, both operational and planned; the schedule for operational stand-up of planned fusion centers; the number of DHS-funded employees located at each fusion center, including details on whether the employees are contract or government staff; the privacy protection policies of each center, including the number of facility personnel trained in Federal privacy, civil rights, and civil liberties laws and standards; and the number of local law enforcement agents at each center approved or pending approval to receive and review classified intelligence information.

UNITED STATES CUSTOMS AND BORDER
PROTECTION

SALARIES AND EXPENSES
(INCLUDING TRANSFER OF FUNDS)

The conferees provide an additional \$115,000,000 for Salaries and Expenses, instead of \$100,000,000 as proposed by the House and \$140,000,000 as proposed by the Senate. Included in this amount are funds to:

(1) implement Security and Accountability For Every Port Act of 2006 (Public Law 109-347) requirements and advance goals of the Secure Freight Initiative to improve significantly the ability of United States Customs and Border Protection (CBP) to target and analyze U.S.-bound cargo containers; expand the screening of such cargo overseas and the capacity to physically inspect containers; procure and integrate non-intrusive inspection equipment into inspection and radiation detection operations; and improve supply chain security, to include enhanced analytic and targeting systems using data collected via commercial and government technologies and databases;

(2) support hiring of not less than an additional 600 CBP Officers, and additional intelligence and trade specialist and support positions for targeting and screening on the Northern Border, at overseas locations, and at the National Targeting Center, and staffing required for Northern Border Air and Marine Operations; and

(3) transfer up to \$5,000,000 to the Federal Law Enforcement Training Center for basic training costs associated with the additional personnel funded in this Act.

The conferees direct CBP to submit expenditure and staffing plans for these additional funds to the Committees on Appropriations no later than 30 days after the date of enactment of this Act and prior to the obligation of the funds.

The conferees direct CBP to sustain the current level of Border Patrol staffing on the Northern Border and to inform the Committees on Appropriations immediately if CBP does not expect to achieve its plan of having at least 1,179 Border Patrol agents permanently deployed to the Northern Border by the end of fiscal year 2007.

ALIEN SMUGGLING TRACKING

The conferees are aware that CBP has established an Office of Alien Smuggling Interdiction (ASI), including three field-level Regional Carrier Liaison Groups. According to CBP, ASI facilitates the exchange of intelligence and information within CBP and between CBP and external agencies related to alien trafficking and smuggling; coordinates such efforts within CBP; and maintains close working relationships with other offices, including the Human Smuggling and Trafficking Center (HSTC), the Border Patrol, and the U.S. Coast Guard. The conferees agree such efforts are consistent with the CBP mission to interdict smuggling, but also coordination requires active CBP participation in the multi-agency HSTC. The conferees direct CBP and ICE jointly to brief the Committees on Appropriations no later than 60 days after the date of enactment of this Act on the role each agency plays in enforcing laws against human smuggling, how those missions are coordinated, and the timeline for placement of CBP detailees at the HSTC.

CONSTRUCTION

The conferees have recently become aware of significant CBP construction program management lapses that may adversely impact deployment of new Border Patrol agents and endanger the successful implementation of border security initiatives. The conferees direct CBP to review and assess the staffing levels committed to facilities management and oversight and submit the Construction Master Plan required by Public Law 109-295 to the Committees on Appropriations as expeditiously as possible.

PERMANENT BORDER PATROL CHECKPOINT

The conferees understand that CBP agrees that no permanent checkpoint will be planned for Southern Arizona without significant and direct community involvement. Any planned permanent checkpoint must: (1) be part of an overall network of border security technology and infrastructure, as well as an increase in personnel; (2) be designed to significantly reduce the number of illegal immigrants and the amount of contraband entering the U.S. through Arizona, and increase the security of our nation by employing technology and capabilities to detect individuals or implements associated with terrorism; and (3) contain attributes that reduce to a minimum the impact on the commerce and quality of life of communities. Prior to the operation of a possible permanent checkpoint in Southern Arizona, CBP must ensure that any temporary checkpoint be administered in a manner consistent with current case law, and address the checkpoint's impact on residents, legitimate travelers, and public safety.

AIR AND MARINE INTERDICTION, OPERATIONS,
MAINTENANCE, AND PROCUREMENT

The conferees provide an additional \$120,000,000 for Air and Marine Interdiction, Operations, Maintenance, and Procurement, instead of \$150,000,000 as proposed by the House and \$75,000,000 as proposed by the Senate. Included in this amount are funds to accelerate planned deployment of Northern Border Air and Marine operations. This includes: establishment of the final Northern Border air wing; procurement of assets, such as fixed wing aircraft, helicopters, unmanned aerial systems, marine and riverine vessels, and other equipment; relocation of aircraft; site acquisition; and the design and building of facilities. The conferees direct CBP to submit an expenditure plan for the use of these funds to the Committees on Appropriations no later than 30 days after the date of enactment of this Act and prior to the obligation of the funds.

UNITED STATES IMMIGRATION AND CUSTOMS
ENFORCEMENT

SALARIES AND EXPENSES

The conferees provide an additional \$10,000,000 for Salaries and Expenses instead of \$20,000,000 as proposed by the Senate. The House bill contains no similar provision. Of this amount, \$5,000,000 is provided to create a security advisory opinion review unit within the Visa Security Program consistent with the Senate report. The remaining \$5,000,000 is provided for the Human Smuggling and Trafficking Center (HSTC). The conferees intend that U.S. Immigration and Customs Enforcement (ICE) serve as the Department's lead at the HSTC, but also direct CBP, given its border protection, inspection, and interdiction missions, to fully participate in the HSTC. The conferees direct ICE to submit an expenditure plan for the use of the HSTC funds to the Committees on Appropriations no later than 30 days after the date of enactment of this Act and prior to the obligation of the funds.

TRANSPORTATION SECURITY ADMINISTRATION

AVIATION SECURITY

The conferees provide an additional \$970,000,000 for Aviation Security instead of \$1,250,000,000 as proposed by the House and \$660,000,000 as proposed by the Senate. Within this total, \$815,000,000 is for the procurement and installation of checked baggage explosives detection systems; \$45,000,000 is for the expansion of checkpoint explosives detection pilot systems; and \$110,000,000 is for air cargo security. Funding for the procurement and installation of checked baggage explosives detection systems and checkpoint explosives detection pilots is available until expended. Funding for air cargo security is available until September 30, 2009.

The conferees direct the Transportation Security Administration (TSA) to utilize funding for explosives detection systems at airports that would derive significant security benefits, consistent with the optimal screening solutions prioritized in TSA's strategic plan for electronic baggage screening. As directed by the Senate, TSA shall submit a revised fiscal year 2007 explosives detection system expenditure plan to the Committees on Appropriations no later than 90 days after the date of enactment of this Act.

The conferees provide \$45,000,000 for the deployment and pilot testing of advanced checkpoint explosives detection equipment and screening technologies to determine preferred operational and equipment protocols. The fiscal year 2008 budget request identifies a number of emerging technologies that could be expedited so that airline passengers and carry-on baggage are screened for explosives, weapons, and other threat objects by the most advanced equipment currently under development. TSA has lagged behind in this area and should use this funding to accelerate this work. The conferees are disappointed that TSA failed to meet a January 23, 2007, deadline to submit a strategic plan for deployment of checkpoint technologies and direct TSA to expeditiously submit that strategic plan, as directed in the joint explanatory statement of managers accompanying the fiscal year 2007 conference report (Report 109-699), and include these additional funds as part of this effort.

The conferees provide \$110,000,000 for air cargo security. This funding sets a path for all cargo carried on passenger aircraft to be screened. Within the amount provided, the conferees direct TSA to: (1) hire no fewer than 150 additional air cargo inspectors to establish a more robust enforcement and compliance regime; (2) complete air cargo vulnerability assessments, as described in TSA's recent report on air cargo security for

all Category X airports; (3) expand the National Explosives Detection Canine Program by no fewer than 170 additional canine teams; and (4) procure and install explosives detection systems, explosives trace machines, and other technologies to screen air cargo. The conferees permit a portion of these funds to be used for proprietary canine teams led by TSA, as proposed by the Senate. In addition, the conferees direct TSA to pursue canine screening methods utilized internationally, which focus on air samples taken from air cargo for explosives detection. Within 90 days after the date of enactment of this Act, TSA shall provide an expenditure plan detailing how it will utilize the \$110,000,000 to increase the screening of air cargo carried on passenger aircraft.

FEDERAL AIR MARSHALS

The conferees provide an additional \$8,000,000 for Federal Air Marshals instead of \$15,000,000 as proposed by the Senate. The House bill contains no similar provision. Funding shall be used to support higher coverage on critical flights that would otherwise have had insufficient coverage. The conferees direct TSA to report back within 30 days from the date of enactment of this Act on how these additional funds will be allocated.

NATIONAL PROTECTION AND PROGRAMS

INFRASTRUCTURE PROTECTION AND INFORMATION SECURITY

The conferees provide an additional \$37,000,000 for Infrastructure Protection and Information Security instead of \$25,000,000 as proposed by the House and \$18,000,000 as proposed by the Senate. Of this total amount, \$25,000,000 shall be to develop State and local interoperability plans in support of the state interoperable grant program; and \$12,000,000 shall be to support implementation of new chemical security regulations.

As outlined in the House report, the conferees direct the Office of Emergency Communications to work in conjunction with the Science and Technology Office of Interoperable Communications and the Federal Emergency Management Agency to support the efforts of State and local governments as they develop state interoperable communications plans. Within 30 days from the date of enactment of this Act, DHS is directed to provide the Committees on Appropriations a detailed expenditure plan for execution of a nationwide state interoperable communications planning effort, including key milestones for achievement of the decisions necessary to support the Public Safety Interoperable Communications Grant Program. The conferees encourage the Department to allow States that do not use reallocated public safety spectrum to be eligible for the Public Safety Interoperable grant funds as long as their systems are compatible with those using reallocated spectrum.

The conferees provide \$12,000,000 to ensure that DHS is able to implement chemical facility security regulations efficiently and effectively as described in the Senate report.

The conferees are concerned with the process used by the Office of Cyber Security to acquire access to a facility for a Secret Service-led computer forensics training program. While the conferees strongly support the Department's efforts to fight cyber-crime, the Department's first notification to Congress of this program was via a press release announcing the Secretary's ribbon cutting at the planned center. This approach represents a violation of the spirit, if not the letter, of section 503 of the Department of Homeland Security Appropriations Act, 2007 (Public Law 109-295). Within 30 days from the date of enactment of this Act, the Secretary is directed to submit to the Committees on Ap-

propriations a report providing a detailed description of the source and amount of funds to be used in support of the new program, the original purpose of each of the funding sources, a legal opinion providing the legal basis for the actions taken in establishing this activity, and the process that will be used in the future to ensure that Congress is informed in advance of any activity that could be construed as either creating new programs or making awards that do not involve an appropriate competitive solicitation of participants or service providers. In addition, the report shall include a justification outlining why this activity is properly undertaken by the Secret Service and DHS rather than the Federal Bureau of Investigation and the Department of Justice.

OFFICE OF HEALTH AFFAIRS

The conferees provide \$15,000,000 for the Office of Health Affairs instead of \$18,000,000 as proposed by the Senate. The House bill contains no similar funding. Of this amount, \$4,000,000 is to support medical readiness, planning, and other activities tasked to this Office.

The remaining \$11,000,000 is for nuclear event public health assessment and planning. The Office of Health Affairs, in conjunction with appropriate agencies and national labs, shall: expeditiously develop plans for the response to, and model the effects of, a 0.1, 1.0 and 10 kiloton nuclear explosion on each tier one Urban Area Security Initiative (UASI) city, where such analysis has not already been completed; assess whether current response and recovery plans of all levels of government provide the greatest public health benefit; document what modifications and appropriate practices for responding to such an event would improve health outcomes; assess if identified affected distribution systems would be sufficient to support the proposed response; and set a strategy, in consultation with the Federal Emergency Management Agency and other appropriate agencies, to ensure consistent and sufficient delivery of information to the public, medical community, and first responders on appropriate protective actions to prepare for and respond to a nuclear attack.

The Office of Health Affairs shall provide quarterly briefings to the Committees on Appropriations on the status of this assessment beginning three months after the date of enactment of this Act.

In addition, of the amount made available for the assessment, up to \$2,000,000 is for the National Academy of Sciences (NAS) to evaluate the Department's estimates of the effects of a nuclear attack and the current level of preparation in tier one UASI cities. NAS shall report on: available healthcare capacity to treat the affected population; treatments available for pertinent radiation illnesses; efficacy of medical countermeasures; the likely capability of the Federal, State, and local authorities to deliver available medical countermeasures in a timely enough way to be effective; and the overall expected benefit of available countermeasures and those in the development pipeline. NAS shall also assess the availability, quality, and benefit of public and medical education in reducing the illness and death associated with a nuclear attack. NAS shall submit its report to the Committees on Appropriations within 18 months after the date of enactment of this Act.

The conferees note the Department has not finalized its Protective Action Guides for Radiological Dispersal Devices and Improvised Nuclear Device Incidents for Federal agencies, State and local governments, emergency responders, and the general public. This guidance would be critical in planning and responding to radiological incidents. The

conferees direct the Department to finalize this guidance as quickly as possible.

The conferees direct the Office of Health Affairs to submit an expenditure plan prior to the obligation of any funds provided under this heading. Funds are available until September 30, 2008.

FEDERAL EMERGENCY MANAGEMENT AGENCY MANAGEMENT AND ADMINISTRATION

The conferees provide \$25,000,000 for Management and Administration instead of \$25,000,000 as proposed by the House for Salaries and Expenses and \$20,000,000 as proposed by the Senate for Administrative and Regional Operations. Within the funding provided, \$10,000,000 is for disaster communications equipment to be placed in Federal Emergency Management Agency (FEMA) regions across the country; \$2,500,000 is to strengthen interstate mutual aid agreements; \$5,000,000 is for regional strike teams; \$6,000,000 is for improvements for financial and information systems; \$500,000 is for the Law Enforcement Liaison Office; \$500,000 is for the Disability Coordinator; and \$500,000 is for the National Advisory Council. The conferees include bill language prohibiting the obligation of this \$25,000,000 until the Committees on Appropriations receive and approve an expenditure plan. Such plan should be submitted within 45 days after the date of enactment of this Act. Funds are available until September 30, 2008.

The "Management and Administration" account combines the former "Administrative and Regional Operations" and "Readiness, Mitigation, Response, and Recovery" accounts. A provision is included to transfer all funds in the "Administrative and Regional Operations" and "Readiness, Mitigation, Response, and Recovery" accounts into the new "Management and Administration" account.

NUCLEAR PREPAREDNESS

The conferees are concerned that cities have little guidance available to them to better prepare their populations to react in the critical moments shortly after a nuclear event. The conferees direct FEMA, in conjunction with the Office of Health Affairs, to report on the general status and adequacy of public fallout shelters and other protective measures, as appropriate, and pre-planned guidance to the public in the tier one UASI cities. Further, FEMA shall report on how it is coordinating with State and local governments and the Department of Health and Human Services for delivery of prepackaged announcements with major radio and television outlets to assure immediate and helpful guidance after a nuclear attack.

STATE AND LOCAL PROGRAMS

The conferees provide an additional \$552,500,000 for State and Local Programs instead of \$415,000,000 as proposed by the House and \$850,000,000 proposed by the Senate. Within the funding provided, \$190,000,000 is for port security grants pursuant to the Security and Accountability For Every Port Act of 2006 (Public Law 109-347); \$325,000,000 is for intercity rail passenger transportation, freight rail, and transit security grants; \$35,000,000 is for regional catastrophic event planning grants and regional technical assistance; and \$2,500,000 is for technical assistance programs.

The conferees continue to be concerned about the Department's poor track record for awarding security grants on a timely basis. The additional funding provided in this Act for port security and rail and mass transit security grants shall be awarded by September 30, 2007. The conferees direct the Department to provide potential grant recipients with pending applications an opportunity to apply for these additional funds.

The conferees provide \$35,000,000 for all-hazard regional catastrophic event planning grants and regional technical assistance as proposed by the Senate. These funds are provided for grants and technical assistance to tier one UASI cities and other participating governments for the purpose of developing all-hazard regional catastrophic event plans and preparedness. FEMA Regional Offices are directed to work with the UASI areas in this effort. Plans and preparedness efforts must address every risk and include logistics, response (including mass evacuation and shelter-in-place), recovery, public education, and business outreach. The conferees include bill language prohibiting the obligation of funds for regional catastrophic event planning grants and regional technical assistance until the Committees on Appropriations receive and approve an expenditure plan. The conferees direct FEMA to provide the expenditure plan by July 1, 2007, so as not to delay this important initiative. The Department shall report to the Committees on Appropriations no later than January 15, 2008, regarding the results of this effort.

The conferees recognize that the majority of grant dollars are spent on first responder equipment at the State and local level. To be effective, it is imperative that first responders are also trained to properly use and maintain the equipment. Therefore, the conferees provide \$2,500,000 to the technical assistance program for operation and maintenance training on detection and response equipment. The program must be competitively awarded. Funds are available until September 30, 2007.

EMERGENCY MANAGEMENT PERFORMANCE GRANTS

The conferees provide an additional \$100,000,000 for Emergency Management Performance Grants. The conferees do not include bill language proposed by the Senate to provide funds for expenses related to the Nationwide Plan Review.

The conferees are concerned by the findings of the Department's Plan Review, which found that emergency management plans across the country are not up-to-date or systematic. State and local emergency management agencies use Emergency Management Performance Grants to enhance their emergency management capabilities and to link efforts regionally and nationwide. The conferees direct FEMA to provide guidelines encouraging State and local governments to address the findings identified in the Nationwide Plan Review. The conferees also direct FEMA to brief the Committees on Appropriations regarding the status of successfully addressing the Nationwide Plan Review findings no later than June 29, 2007.

UNITED STATES CITIZENSHIP AND IMMIGRATION SERVICES

The conferees agree to provide an additional \$10,000,000 for United States Citizenship and Immigration Services instead of \$30,000,000 as proposed by the Senate. The

House bill contains no similar provision. The conferees understand that there are approximately 170,000 immigration applications and petitions awaiting security checks by the Federal Bureau of Investigation. These funds are provided under the terms and conditions listed in the Senate report, including a restriction from obligation until the Committees on Appropriations receive a specific plan that describes how this security check backlog will be addressed comprehensively.

SCIENCE AND TECHNOLOGY

RESEARCH, DEVELOPMENT, ACQUISITION, AND OPERATIONS

The conferees provide an additional \$10,000,000 for Research, Development, Acquisition, and Operations instead of \$15,000,000 as proposed by the Senate. The House bill contains no similar provision. The conferees direct that this funding be used for research on improved air cargo screening technologies to protect aircraft from explosives and other harmful materials, as discussed in the Senate report. None of the funds shall be used to continue, beyond the current timeframe, ongoing air cargo pilots. The benefits and findings from these pilots should be made available to all stakeholders as quickly as possible.

DOMESTIC NUCLEAR DETECTION OFFICE

RESEARCH, DEVELOPMENT, AND OPERATIONS

The conferees provide an additional \$39,000,000 for Research, Development and Operations as proposed by the Senate. The House bill contains no similar provision. Within the funding provided, \$5,000,000 is to enhance detection links between seaports and railroads as authorized in Section 121(i) of Security and Accountability For Every Port Act of 2006 (Public Law 109-347); \$8,000,000 is to accelerate development and deployment of detection systems at international rail border crossings; and \$26,000,000 is for development and deployment of a variety of screening technologies at aviation facilities as discussed in the Senate report. Funding is available until expended.

SYSTEMS ACQUISITION

The conferees provide an additional \$223,500,000 for Systems Acquisition instead of \$400,000,000 as proposed by the House. The Senate bill contains no similar provision. Funding shall be used to acquire and deploy additional radiation portal monitors at all locations DHS determines necessary. No funds shall be used to acquire advanced spectroscopic portal monitors until the Secretary of Homeland Security certifies that these systems will achieve a significant increase in operational effectiveness. If the Secretary is unable to certify an increase in operational effectiveness, the conferees direct the Domestic Nuclear Detection Office to acquire currently available radiation portal monitors. Funds are available until expended.

GENERAL PROVISIONS

Section 1501.—The conferees modify a provision proposed by both the House and Sen-

ate that clarifies Federal preemption of State and local chemical site security regulations. The conferees also modify a House provision on information security standards for chemical facility vulnerability information.

Sec. 1502.—The conferees include a provision proposed by the Senate that precludes the Department from using funds in this Act or provided by P.L. 109-295 to carry out reorganization authority. The House bill contains no similar provision.

Sec. 1503.—The conferees include a provision proposed by the Senate that mandates that the Department of Homeland Security require all contracts that provide award fees to link such fees to successful acquisition outcomes. The House bill contains no similar provision.

The conferees do not include a provision proposed by the Senate regarding the Domestic Preparedness Equipment Technical Assistance Program.

CHAPTER 6

HOUSE OF REPRESENTATIVES

SALARIES AND EXPENSES

The conferees agree to provide \$6,437,000 for the House of Representatives for business continuity and disaster recovery. Inasmuch as this item relates solely to the House, and in accord with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention, the managers on the part of the Senate, at the request of the managers on the part of the House, have receded to the amendment of the House.

GOVERNMENT ACCOUNTABILITY OFFICE

SALARIES AND EXPENSES

The conference agreement provides \$374,000 to the Government Accountability Office to remain available until September 30, 2008. This is the same amount as proposed by the Senate. The House bill carried no such provision.

CHAPTER 7

DEPARTMENT OF DEFENSE

NATO Security Investment Program (NSIP) reimbursement for military construction in Afghanistan.—The conferees understand that military construction projects carried out in Afghanistan may be eligible for reimbursement under NSIP. The conferees therefore direct the Department of Defense to aggressively pursue NSIP funding for military construction in Afghanistan and review all future projects for NSIP eligibility.

MILITARY CONSTRUCTION, ARMY

The conferees agree to provide \$1,255,890,000 for Military Construction, Army, instead of \$1,329,240,000 as proposed by the House and \$1,261,390,000 as proposed by the Senate. The funds are provided as follows:

Coordination of military road construction in Afghanistan.—The conferees agree to include a provision, as proposed by the House, to prohibit the obligation or expenditure of \$369,690,000 in funds until the Secretary of Defense submits a detailed report on the coordination of military road construction in Afghanistan with NATO and coalition nations. The Senate bill contained no similar provision.

Growing the Force, Army.—The conferees agree to provide \$401,700,000 for construction and planning and design efforts in support of the Army's proposed permanent end-strength increase of up to 65,000 soldiers. The conferees are concerned, however, about the lack of an overall plan to station and accommodate these increases with the necessary facilities. The conferees therefore agree to

include language that prohibits the obligation and expenditure of these funds until the Secretary of Defense submits a Grow the Force Stationing Plan that includes the following for the entire 65,000-soldier increase: the new units to be created and the number of soldiers in each such unit; the specific increases in the number of soldiers to existing units; the installation where each new unit or augmented unit will be located; the estimated dates of initial operational capability and full operational capability of each new unit; the types of temporary and permanent facilities required (including family housing) and the estimated cost; and any other pertinent information. This report also shall provide the same information, where appropriate, for the proposed increase of 8,200 personnel to the Army National Guard and the

proposed increase of 1,000 personnel to the Army Reserve.

Permanent bases in Iraq.—The conferees agree to include a provision, as proposed by the Senate, to prohibit the obligation or expenditure of \$274,800,000 in funds until the Secretary of Defense certifies that none of these funds are to be used for the permanent basing of U.S. military personnel in Iraq. The House bill contained no similar provision.

MILITARY CONSTRUCTION, NAVY AND MARINE CORPS

The conferees agree to provide \$370,990,000 for Military Construction, Navy and Marine Corps, instead of \$389,300,000 as proposed by the House and \$347,890,000 as proposed by the Senate. The funds are provided as follows:

Growing the Force, Marine Corps.—The conferees agree to provide \$324,270,000 for construction and planning and design efforts in support of the Marine Corps' proposed permanent end-strength increase of up to 27,000 marines. The conferees are concerned, however, about the lack of an overall plan to station and accommodate these increases with the necessary facilities. The conferees therefore agree to include language that prohibits the obligation and expenditure of these funds until the Secretary of Defense submits a Grow the Force Stationing Plan that includes the following for the entire 27,000-marine increase: the new units to be created and the number of marines in each such unit; the specific increases in the number of marines to existing units; the installations where each new unit or augmented unit will be located; the estimated dates of initial operational capability and full operational capability of each new unit; the types of temporary and permanent facilities required (including family housing) and the estimated cost; and any other pertinent information.

MILITARY CONSTRUCTION, AIR FORCE

The conferees agree to provide \$43,300,000 for Military Construction, Air Force, instead of \$60,200,000 as proposed by the House and \$34,700,000 as proposed by the Senate. The funds are provided as follows:

Location	Project description	Request	Conference Agreement
Afghanistan: Bagram AB.	Hot Cargo Pad and Access Road.	7,300,000	7,300,000
Afghanistan: Bagram AB.	Parallel Taxiway	49,000,000	33,000,000
Worldwide: Unspecified.	Planning and Design ...	3,900,000	3,000,000
Total		60,200,000	43,300,000

Parallel Taxiway, Bagram, Afghanistan.—The conferees agree to provide \$33,000,000 to extend the existing parallel taxiway at Bagram, rather than the \$49,000,000 requested to build a new taxiway. One of the justifications for this project provided by the Department of Defense is to allow for parking expansion to accommodate wide-body aircraft. The conferees note, however, that the Administration's March 9 revisions deleted the Strategic Aircraft Ramp from the original request, indicating that it no longer considers such expansion to be a priority.

BASE REALIGNMENT AND CLOSURE ACCOUNT 2005

The conferees agree to provide \$3,136,802,000 for the Base Realignment and Closure Account 2005 as proposed by both the House and the Senate.

GENERAL PROVISIONS—THIS CHAPTER

The conferees agree to include a modified general provision related to the Walter Reed Army Medical Center.

The conferees agree to include a general provision proposed by the Senate related to the Armed Forces Institute of Pathology. The House bill contained no similar provision.

CHAPTER 8

DEPARTMENT OF STATE AND RELATED AGENCY

DEPARTMENT OF STATE

ADMINISTRATION OF FOREIGN AFFAIRS

DIPLOMATIC AND CONSULAR PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$870,658,000 for Diplomatic and Consular Programs, instead of \$966,954,000 as proposed by the House and \$815,796,000 as proposed by the Senate. Within the total under this heading, \$96,500,000 is for World Wide Security Upgrades and is available until expended, instead of \$102,155,000 as proposed by the House and \$70,000,000 as proposed by the Senate.

The conference agreement includes the transfer of \$258,000 to the United States Commission on International Religious Freedom from within the funds provided under the heading as proposed by the House. The Senate included no similar provision.

The conference agreement includes \$20,000,000 under this heading for public diplomacy programs, as proposed by the Senate. The House included the same amount for this purpose, but did not include the language in the bill.

The conferees recognize that public diplomacy activities, when effectively implemented, engage and inform foreign audiences, communicate and advocate policies of the United States, and convey shared interests and values across the globe. These activities are important in building the goodwill and cooperation that is necessary for the United States to achieve our foreign policy and national security goals. The conferees believe that although there has been increased attention on public diplomacy efforts since the terrorist attacks of September 11, 2001, a more focused interagency effort is necessary. Therefore, the conferees direct that the Secretary of State develop a comprehensive, interagency strategy for public diplomacy programming in predominantly Muslim countries, as proposed by the Senate, including programming efforts via various media. The conferees expect the plan to include planned expenditures, by category, of funding available in fiscal year 2007 for public diplomacy activities, as proposed by the House. The conferees direct the report to be provided to the Committees on Appropriations not later than 45 days after the enactment of this Act.

The conference agreement includes \$750,000,000 for Diplomatic and Consular Programs relating to Iraq, instead of \$790,641,000 as proposed by the House and \$723,896,000 as proposed by the Senate. The conferees understand that a Memorandum of Agreement between the Departments of State and Defense was finalized on February 27, 2007, specifying operational requirements, authorities, and responsibilities shared between the U.S. Mission in Iraq and the Multi-National Forces in Iraq. The conferees recognize that the as-

sumptions on which the request was based may have changed. Therefore, the conference agreement includes bill language withholding from obligation twenty percent of the amount made available under this heading for Iraq operations until the Committees on Appropriations receive and approve a detailed expenditure plan of funding for such operations, similar to language proposed by the House. The Senate bill included no similar provision.

The fiscal year 2005 Emergency Supplemental Appropriations Act (P.L. 109-13) included \$592,000,000 for the construction of a new embassy compound in Baghdad, Iraq, based on a number of 1,157 desks and 619 beds. The conferees are dismayed to learn that the Department of State continues to plan for an increase in staffing of thirty percent in desks and an increase of ninety-six percent in beds above the amount approved by the Congress. Therefore, the conferees direct the Secretary of State, in consultation with the U.S. Chief of Mission in Iraq, to undertake a review of the current personnel plan for the Mission in Iraq and provide justification for the deviation from the 2005-approved plan prior to obligation of funding under this heading. The conferees expect a report on the new embassy compound personnel requirements in light of the available office space, including a housing plan from the Overseas Buildings Operations Bureau, not later than 45 days of enactment of this Act.

The conference agreement does not include language under this heading included in the House bill providing up to \$50,000,000 to establish and maintain a civilian reserve corps. Instead, the conference agreement includes a modified general provision similar to language in section 1712 of the Senate bill.

The conference agreement includes a provision directing the Office of Management and Budget to apportion \$15,000,000 appropriated in the fiscal year 2006 Emergency Supplemental Appropriations Act (P.L. 109-148) for Emergencies in the Diplomatic and Consular Service funding, as proposed by the Senate. The House included no similar provision.

The conference agreement includes a provision similar to that proposed by the Senate authorizing the transfer of up to \$20,000,000 from funds made available under this heading to the Emergencies in the Diplomatic and Consular Service account only for the payment of terrorism rewards. The House bill included no similar provision.

The conferees concur with language included in the House report denying funds requested for salaries and allowances for new domestic staff positions and to lease additional space.

Funds under this heading are provided on an emergency basis.

The conference agreement allocates funding as follows:

OFFICE OF THE INSPECTOR GENERAL
(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$36,500,000 for the Office of the Inspector General as proposed by the Senate, instead of \$46,800,000 as proposed by the House. Within the amount provided under this heading, \$35,000,000 is for a transfer to the Special Inspector General for Iraq Reconstruction (SIGIR) to conduct oversight work on reconstruction projects in Iraq, \$1,300,000 is for the Department of State Inspector General's oversight work related to operations in Iraq, and \$200,000 is for the Department of State Inspector General's oversight work related to operations in Afghanistan.

The conferees direct the SIGIR to report to the Committees on Appropriations not later than 90 days of enactment of this Act on the number of personnel, contract services, and budgetary needs of SIGIR at the time of the report and the projected operational requirements for the remainder of fiscal year 2007 and fiscal year 2008. The conferees intend that the report specifically address the personnel and resource requirements of section 2 of P.L. 109-440. The SIGIR shall inform the Committees on Appropriations regarding the enactment of any legislation subsequent to the submission of the report which imposes additional oversight responsibilities on SIGIR or which otherwise affects its operational requirements.

Funds under this heading are provided on an emergency basis.

EDUCATIONAL AND CULTURAL EXCHANGE
PROGRAMS

The conference agreement includes \$20,000,000 for Educational and Cultural Exchange Programs as proposed by the House, instead of \$10,000,000 as proposed by the Senate.

The conferees concur with language in the Senate report regarding support for a pilot program, which would create a two-way exchange component of the Youth Exchange and Study program.

Funds under this heading are provided on an emergency basis.

INTERNATIONAL ORGANIZATIONS
CONTRIBUTIONS TO INTERNATIONAL
ORGANIZATIONS

The conference agreement includes \$50,000,000 for Contributions to International Organizations, instead of \$59,000,000 as proposed by the Senate. The House bill included no similar provision.

These funds are intended to pay arrears to organizations that are involved in global efforts to combat international terrorism and to prevent the spread of avian influenza.

Funds under this heading are provided on an emergency basis.

CONTRIBUTIONS FOR INTERNATIONAL
PEACEKEEPING ACTIVITIES

The conference agreement provides \$288,000,000 for assessed costs of U.N. peacekeeping operations as proposed by the House instead of \$200,000,000 as proposed by the Senate. Within the total provided under this heading, \$184,000,000 is for the U.N. Interim Force in Lebanon, \$16,000,000 is for the U.N. Mission in Timor Leste, and \$88,000,000 is intended for a potential U.N. mission in Chad, as proposed by the House. The Senate bill included funding for Chad under the Peacekeeping Operations account.

The conferees direct that if funds are not obligated for a U.N. mission in Chad by August 15, 2007, the Department of State should consult with the Committees on Appropriations on the funding needs for other priority missions within the Contributions for International Peacekeeping Activities account.

Funds under this heading are provided on an emergency basis.

RELATED AGENCY

BROADCASTING BOARD OF GOVERNORS

INTERNATIONAL BROADCASTING OPERATIONS

The conference agreement includes \$10,000,000 for International Broadcasting Operations as proposed by the House and the Senate.

FUNDS APPROPRIATED TO THE PRESIDENT

CHILD SURVIVAL AND HEALTH PROGRAMS FUND
(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$161,000,000 for the Child Survival and Health Programs Fund account, as proposed by the House and the Senate.

The conference agreement includes language, similar to that proposed by the Senate, providing authority to the President to use funding under the Millennium Challenge Corporation and Global HIV/AIDS Initiative accounts to combat an avian influenza pandemic, if he determines that the human-to-human transmission of the avian influenza virus is efficient and sustained, and is spreading internationally. The conferees note that this is the highest threat level of the World Health Organization's Global Influenza Preparedness Plan. The conferees expect the Office of Management and Budget to request reimbursement of any funds used from the Millennium Challenge Corporation and Global HIV/AIDS Initiative accounts in the event the President exercises this authority.

The conferees endorse House report language requiring a report on planned expenditures not later than 45 days of enactment of this Act.

Funds under this heading are provided on an emergency basis.

INTERNATIONAL DISASTER AND FAMINE
ASSISTANCE

The conference agreement includes \$165,000,000 for International Disaster and Famine Assistance, instead of \$135,000,000 as proposed by the House and \$187,000,000 as proposed by the Senate.

Within the total provided under this heading, not less than \$45,000,000 is for Iraq, not less than \$44,000,000 is for Sudan, not less than \$20,000,000 is for Somalia, and not less than \$16,000,000 is for assistance for internally displaced persons in and near Kabul, Afghanistan. Of the amounts provided for Iraq, the conferees include \$57,400,000 for economic and social development programs in areas of conflict in Iraq, and intend these funds to be used to counter extremist elements in that country. The conferees provide the U.S. Chief of Mission in Iraq with the responsibility for policy decisions and justification for the use of these funds. The conferees do not support the Department of State proposal to provide assistance directly to Iraqi political parties, as contained in the budget request justification materials, and note that these funds are in lieu of those requested for the Political Participation Fund and the National Institutions Fund.

The conference agreement includes not less than \$95,000,000 for the Community Action Program, instead of \$75,000,000 as proposed by the House and \$100,000,000 as proposed by the Senate. TITLE II—ADDITIONAL HURRICANE DISASTER RELIEF AND RECOVERY

Funding in this title provides continuing support for hurricane disaster relief and recovery. One of the groups that has been most adversely affected are the children in the Gulf Coast region. The conferees provide additional funding of \$4,610,000,000 to the Federal Emergency Management Agency Disaster Relief fund. This funding can help continue to address the needs of the estimated 372,000 students affected by Hurricane Katrina. The Disaster Relief fund includes support for public assistance grants to repair and reconstruct school buildings, replace contents in schools including books and desks, and provide portable classrooms. A provision included in this legislation mandates that the full cost of the assistance to affected States, applied for prior to enactment of this Act, is borne by the federal government.

The supplemental also provides \$30,000,000 in emergency assistance for the public ele-

mentary and secondary schools most severely impacted by the 2005 Gulf Coast hurricanes in order to help them recruit and retain high quality classroom teachers for the children returning to these communities.

The supplemental also extends the availability of \$550,000,000 in emergency funds provided for the Title XX Social Services Block Grant in 2006 that will otherwise expire on September 30, 2007. A portion of these funds will be used to provide behavioral health services, foster care, protective, and day care services for children.

CHAPTER 1

DEPARTMENT OF AGRICULTURE

CHAPTER 2

DEPARTMENT OF JUSTICE

OFFICE OF JUSTICE PROGRAMS

The House did not include this funding. This funding is provided for local law enforcement initiatives in the Gulf Coast region related to the aftermath of Hurricanes Katrina and Rita. The conferees agree that funding shall be distributed to the States in relation to their level of violent crime as estimated by the Federal Bureau of Investigation's Uniform Crime Report for 2005.

The conference agreement does not include \$100,000,000 for Edward Byrne Discretionary Grants for State and local law enforcement for security related to the 2008 Presidential Conventions. As proposed by the Senate, the funds would have been distributed equally between the host cities of Denver, Colorado and St. Paul, Minnesota. The House proposed no funding.

DEPARTMENT OF COMMERCE

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

OPERATIONS, RESEARCH, AND FACILITIES

The conference agreement includes \$110,000,000 under this heading, instead of \$120,000,000 as proposed by the House and \$165,900,000 as proposed by the Senate. Within this amount, the Senate proposal included \$60,400,000 for a salmon fishery disaster along the Klamath River. The House provided funding for this purpose in a different title. The conferees agree to provide funding for the consequences of this disaster in Title III of this Act.

The conferees provide: \$24,000,000 for the Office of Coast Survey and the Office of Response and Restoration to conduct scanning and mapping as well as to provide debris removal in Louisiana's traditional fishing grounds; \$85,000,000 for assistance programs authorized under section 115 of the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006, of which funding shall be distributed to eligible

recipients in States most affected by Hurricanes Katrina and Rita; and \$1,000,000 for real-time observations and forecasts for critical marine navigation at the next highest priority seaports along the northern Gulf of Mexico, and to continue to repair and replace tide gauge stations throughout the entire region which are critical components to coastal shipboard navigation and storm surge information.

The conferees direct the Department of Commerce to work with the States of Louisiana, Mississippi, and Alabama and other appropriate entities to distribute assistance funding based on an assessment of the needs of the fishing industries in those States. The conferees direct the Department of Commerce to notify the Committees on Appropriations on the allocation of funds provided under this heading for the above activities no later than 15 days prior to obligation of such funds.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

EXPLORATION CAPABILITIES

The conference agreement includes \$35,000,000 for risk mitigation projects at the National Aeronautics and Space Administration (NASA), as proposed by the House. The Senate did not include funding under this heading.

GENERAL PROVISION—THIS CHAPTER

The conference agreement includes language to allow NASA to use previously appropriated emergency funds to cover hurricane response expenses incurred in fiscal year 2005.

CHAPTER 3

DEPARTMENT OF DEFENSE—CIVIL

DEPARTMENT OF THE ARMY

CORPS OF ENGINEERS—CIVIL

CONSTRUCTION

The conference agreement provides \$25,300,000 for "Construction", instead of \$37,080,000 as proposed by the House and \$150,000,000 as proposed by the Senate. These funds are provided for necessary expenses related to the consequences of Hurricane Katrina and other hurricanes of the 2005 season, and may be used to continue construction of projects related to interior drainage for the greater New Orleans metropolitan area.

FLOOD CONTROL AND COASTAL EMERGENCIES

The conference agreement provides \$1,407,700,000 for "Flood Control and Coastal Emergencies" as proposed by the Senate instead of \$1,300,000,000 as proposed by the House. Additional funding for this account is provided under title III.

The Conferees include \$107,700,000 to construct interim flood and storm damage reduction measures recommended in the Chief of Engineers report dated December 31, 2006, entitled "Mississippi Coastal Improvements Program, Interim Report", at full federal expense.

Funds provided in Public Law 109-148, the third emergency supplemental appropriations act of 2006, were intended to complete the West Bank and vicinity and Lake Pontchartrain and vicinity, Louisiana, projects. However, the magnitude of the effort required to provide the pre-Katrina authorized levels of protection is now recognized to be much greater than originally anticipated. Accordingly, \$1,300,000,000 is included to complete the pre-Katrina authorized level of protection for the West Bank and vicinity project as well as make progress toward providing authorized protection for the remaining portions of the Lake Pontchartrain and vicinity project.

The Conferees are aware that the Corps of Engineers is considering the placement of in-

terim protective structures at the Inner Harbor Navigation Canal to provide an enhanced measure of protection against storm surges traveling up the Mississippi River Gulf Outlet or the Gulf Intracoastal Waterway until authorized permanent protective measures can be designed and built. The Conferees support this use of Flood Control and Coastal Emergency funds made available under P.L. 109-234. The Corps is reminded that a potentially catastrophic emergency situation continues to exist at the Inner Harbor and encourages the Corps to employ all legitimate emergency means and authorities to ensure that some enhanced level of interim protection can be put into place during 2007, and that permanent protective structures can be completed by 2010.

Additionally, a provision is included to allow the reallocation of funds provided in chapter 3 of Public Law 109-234 under the heading "Flood Control and Coastal Emergencies" for projects in the greater New Orleans area. The provision requires any reallocation of funds be approved by the House and Senate Committees on Appropriations. The Conferees are aware of only one instance where the reallocation of funds is advisable, the provision of permanent protection at the Inner Harbor Navigation Canal. While the Conferees recognize there may be future circumstances where the use of this authority will be desirable, the Corps is instructed to use it judiciously.

GENERAL PROVISIONS—THIS CHAPTER

Sec. 2301. The conference agreement includes a provision relating to reimbursements to local governments for expenses incurred for eligible storm and flood damage reduction activities.

Sec. 2302. The conference agreement includes a provision related to the utilization of funds provided under Public Law 109-234.

Sec. 2303. The conference agreement includes a provision directing the study of the effectiveness of pumping stations and other alternatives at specific sites in New Orleans.

Sec. 2304. The conference agreement includes a provision directing the acceleration of the Mississippi River Gulf Outlet study, as practicable.

CHAPTER 4

SMALL BUSINESS ADMINISTRATION

DISASTER LOANS PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

The conference agreement modifies the House and Senate proposals and provides for the use of \$25,069,000 in unobligated balances of the Disaster Loans Program Account to be used for administrative expenses. The House and Senate recommended \$25,069,000 as a new appropriation.

The conference agreement also provides that \$25,000,000 in unobligated balances shall be used for the Small Business Administration Disaster Loans Program for Economic Injury Disaster Loans. Not more than \$8,750,000 may be used for administrative expenses. The Senate proposed a direct appropriation as part of section 2401. The House did not include similar language.

GENERAL PROVISIONS—THIS CHAPTER

The conference agreement does not include language proposed as Senate section 2401 regarding Economic Injury Disaster Loans.

The conference agreement does not include language proposed as Senate section 2402 to extend the HUBZone program and to terminate the Small Business Competitive Demonstration Program.

The conference agreement does not include language proposed as Senate section 2403 to modify the Reservist Program.

CHAPTERS

DEPARTMENT OF HOMELAND SECURITY

OFFICE OF THE FEDERAL COORDINATOR FOR GULF COAST REBUILDING

The conferees understand the Office of the Federal Coordinator for Gulf Coast Rebuilding is working on several initiatives, such as working with the Federal Emergency Management Agency (FEMA) to advance public assistance projects, including those that focus on education and criminal justice; working with the Department of Housing and Urban Development (HUD) on a public housing plan; and developing a plan to transition evacuees into permanent housing. The conferees agree that the housing problem in the Gulf Coast is especially daunting and expect the Office of the Federal Coordinator for Gulf Coast Rebuilding to take a leadership role in order to ensure progress is made. The focus of the Office of the Federal Coordinator for Gulf Coast Rebuilding should not only be on public housing but also on other HUD programs including Section 202, Section 811, and rental assistance. The conferees expect that a near-term goal is to develop housing solutions for all evacuees. The conferees direct the Office of the Federal Coordinator for Gulf Coast Rebuilding to provide quarterly progress reports to the Committees on Appropriations outlining monthly progress on ongoing initiatives, factors delaying progress, and the goals and expectations against which progress is being measured.

FEDERAL EMERGENCY MANAGEMENT AGENCY

DISASTER RELIEF

(INCLUDING TRANSFER OF FUNDS)

The conferees provide \$4,610,000,000 for Disaster Relief instead of \$4,310,000,000 as proposed by the House and Senate. The conferees agree with the House report requiring the Government Accountability Office to review how FEMA develops its estimates of the funds needed to respond to any given disaster.

The conferees provide that \$4,000,000 of the amount provided be transferred to the Office of Inspector General to increase oversight of Hurricanes Katrina, Rita, and Wilma expenditures and eliminate waste, fraud and abuse, as proposed by the House.

GENERAL PROVISIONS

Section 2501.—The conferees include provisions proposed by the House and Senate eliminating the State and local match requirement for certain Federal assistance applied for prior to enactment of this Act pursuant to Title IV of the Stafford Act in response to Hurricanes Katrina, Rita, Wilma, and Dennis in Louisiana, Mississippi, Texas, Florida, and Alabama. The conferees direct FEMA to apply the cost share waiver to all eligible projects for which a "request for public assistance from" has been submitted and for other needs assistance that has been applied for by an individual prior to enactment of this Act.

Section 2502.—The conferees include a provision proposed by the House and Senate restoring FEMA's ability to forgive Community Disaster Loans that were issued in response to Hurricanes Katrina and Rita. This is consistent with previous disasters. This provision is retroactive to the date of enactment of P.L. 109-234 and P.L. 109-88, as proposed by the House.

Section 2503.—The conferees include a provision proposed by the House and Senate extending the availability of utilities assistance for those leases negotiated by State and local governments and reimbursed by FEMA. This provision is retroactive to the date of enactment of P.L. 109-234, as proposed by the House.

CHAPTER 6
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
HISTORIC PRESERVATION FUND

The conference agreement provides \$10,000,000 for the historic preservation fund instead of \$15,000,000 as recommended by the Senate and no funding recommended by the House. The agreement includes the bill language and instructions recommended by the Senate.

GENERAL PROVISIONS—THIS CHAPTER
(INCLUDING TRANSFER OF FUNDS)

Section 2601. The conference agreement modifies language proposed by the Senate. The conference agreement makes a technical correction to P.L. 109-234 permitting \$500,000 of emergency Hurricane Katrina disaster funds provided in fiscal year 2006 to be transferred from the National Park Service Historic Preservation Fund account to the National Recreation and Preservation account. These funds will be used for hurricane related reconstruction activities.

CHAPTER 7
DEPARTMENT OF EDUCATION
HIGHER EDUCATION

The conference agreement includes \$30,000,000 for grants to institutions of higher education impacted by Hurricanes Katrina or Rita. The House bill and Senate amendment also proposed \$30,000,000 for grants to institutions of higher education, but used different eligibility criteria to define how the funds should be allocated. The conferees direct the Secretary to allocate funds to interested eligible institutions based on their share of unreimbursed expenses, including tuition and fees revenue lost, expenses incurred in remediating the effects of the hurricanes, and estimated construction costs for repairing and replacing campus buildings. These data should reflect revenue lost and expenses incurred through the current semester of this academic year.

The conferees direct the Department to disburse these funds within 60 days of the date of enactment of this act. The conferees also direct the Department to brief the Committees on Appropriations of the House of Representatives and Senate on the proposed methodology for allocating these funds prior to any action notifying the public of the availability of these funds.

HURRICANE EDUCATION RECOVERY

The conference agreement provides \$30,000,000 for grants to hurricane-impacted States and local educational agencies to build the capacity of public schools that were forced to suspend operations due to Hurricane Katrina or Hurricane Rita. The House bill and Senate amendment also proposed \$30,000,000 for this purpose, but used different criteria regarding the use and distribution of the funds. The conferees request that the Department of Education provide quarterly reports to the House Committee on Education and Labor; the Senate Committee on Health, Education, Labor, and Pensions; and the House and Senate Committees on Appropriations on the use of this emergency assistance, including amounts paid for recruitment incentives such as performance pay, relocation, and housing.

PROGRAMS TO RESTART SCHOOL OPERATIONS

The conference agreement modifies bill language proposed by the House and Senate to expand the uses of funds provided for emergency aid to restart school operations appropriated in Public Law 109-148 to include costs associated with recruitment and retention of educators and other activities to assist in building the capacity of public schools that were forced to suspend operations due

to Hurricane Katrina or Hurricane Rita. The House bill and Senate amendment had similar language.

GENERAL PROVISIONS—THIS CHAPTER

Sec. 2701. The conference agreement modifies bill language proposed by the House and Senate providing flexibility to eligible States and local educational agencies in the use of emergency aid to restart school operations appropriated in Public Law 109-148.

Sec. 2702. The conference agreement includes a provision similar to that proposed by the House and the Senate that extends until September 30, 2009, the availability of emergency title XX Social Services Block Grant funds provided to the States affected by the 2005 Gulf Coast hurricanes under the Department of Defense, Emergency Supplemental Appropriations to Address Hurricanes in the Gulf of Mexico, and Pandemic Influenza Act, 2006.

Sec. 2703. The conference agreement includes language permitting the Secretary of Health and Human Services to grant waivers modifying three provisions of the Ryan White State HIV/AIDS grants for four States affected by the 2005 Gulf Coast hurricanes. The Senate amendment included similar language. The House bill did not include a similar provision.

(INCLUDING RESCISSION OF FUNDS)

The conference agreement includes \$682,942,000 for the Emergency Relief Program, instead of \$388,903,000 as proposed by the Senate. The House had no similar funding provision. The conference agreement also includes language that waives the per-State per-disaster limitation for the 2005-2006 winter storms which severely impacted forty counties in the State of California. In taking this action, the conferees make eligible the costs associated with this disaster that exceed the statutory limitation but do not prioritize them above the costs associated with any other disaster eligible for emergency relief assistance. The conference agreement eliminates the total current backlog of formal and pending requests for emergency relief funding.

The cost of providing these funds is offset by a rescission of an equal amount of the unobligated balances of funds apportioned to the states under chapter 1 of title 23, United States Code, excluding safety programs and funds set aside within the state for population areas. The conferees direct the FHWA to administer the rescission by allowing each state maximum flexibility in making adjustments among the apportioned highway programs.

FEDERAL TRANSIT ADMINISTRATION
FORMULA GRANTS

The conference agreement includes \$35,000,000, instead of \$75,000,000 as proposed by the Senate, for the Federal Transit Administration's formula grant program for emergency expenses associated with the continuation of transit services in communities severely impacted by Hurricanes Katrina and Rita. The conferees direct that funding shall be allocated by the Secretary both for operating expenses necessary to keep transit services affordable for local residents as well as for capital costs associated with the replacement of rolling stock destroyed by the hurricanes. The conferees direct the Federal Transit Administration to make this assistance available without requirement for local match. The House included no similar appropriation.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$7,000,000 for the Office of the Inspector General instead of \$10,240,000 as proposed by the House and \$5,000,000 as proposed by the Senate. These funds shall be used to meet the necessary HUD OIG expenses related to the auditing and oversight of HUD funds provided previously to address the consequences of Hurricanes Katrina and Rita. These funds shall remain available until expended, as proposed by the Senate. The conferees believe that the oversight of emergency CDBG funds is an important responsibility for the HUD IG to ensure that disaster funds provided for the Gulf are used efficiently and effectively. The conferees expect the OIG to establish benchmarks to identify the effective use of these funds.

Since this is a substantial increase of funding for the OIG, the conferees direct that these supplemental funds not be used solely to increase the number of OIG staff. The conferees cannot be certain that resources will be available to annualize the costs of such a substantial staffing boost. Rather, the conferees expect the OIG to view these supplemental resources as non-recurring and focus these resources on a multi-year effort targeted solely on HUD-related investigations and audits related to the emergency CDBG and other HUD funds provided to rebuild the Gulf region and house low-income tenants.

GENERAL PROVISIONS—THIS CHAPTER

The conference agreement includes a general provision as proposed by the House to extend until December 31, 2007 the existing authority to waive Section 8 income eligibility and tenant contribution requirements for the Disaster Voucher Program. The Senate did not include a similar provision.

The conference agreement modifies a general provision proposed by both the House and Senate that temporarily exempts specific categories of public housing authorities from the new 12-month formula for the Tenant-Based Rental Assistance program. To the extent a demonstration of need is made, the specific categories are as follows: 1) public housing agencies impacted by Hurricanes Katrina and Rita; and 2) public housing agencies that are under receivership or declared to be in breach of their Annual Contributions Contract. Public housing agencies that spent more than the total of their allocated funds for 2005 and 2006 may not receive a higher allocation. The conference agreement does not include an exemption for public housing authorities operating under the Moving to Work program as proposed by the House.

The conference agreement includes a new general provision that extends until December 31, 2007, the provision of Sec. 901 of Public Law 109-148. This provision will continue to allow public housing authorities in the most heavily impacted areas in Mississippi and Louisiana the flexibility to combine separate funding streams to assist tenants and reconstruct and rehabilitate low-income rental housing.

The conference agreement does not include language proposed by the House to extend the funds associated with the Disaster Voucher Program because Congress has been assured by senior level officials from the Department of Housing and Urban Development (HUD) that HUD will obligate all remaining funds prior to September 30, 2007.

DEPARTMENT OF COMMERCE

NATIONAL OCEANIC AND ATMOSPHERIC

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

The conference agreement includes \$12,000,000 of emergency funding for the na-

tional forest system as recommended by the Senate instead of no funding as recommended by the House. The conference agreement is consistent with the Senate proposal to increase drug eradication on national forest system lands and clarifies that these funds should be used for law enforcement against all types of drug traffickers. The managers agree that funding should be directed for increased staffing, equipment, training and cooperative agreements to increase protection of national forest lands in areas that face the highest concentration of drug-trafficking activity.

WILDLAND FIRE MANAGEMENT

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$400,000,000 of emergency funding for wildland fire management activities of the Forest Service as proposed by both the House and the Senate.

GENERAL PROVISIONS—THIS CHAPTER

Section 3301. The conference agreement replaces language recommended by the House in section 4501 and language recommended by the Senate in Title II, section 2601, dealing with payments for county schools and other purposes. The agreement makes one-time payments to States in the same amounts and in the same manner, to the maximum extent practicable, as were done in 2006 under the Secure Rural Schools and Community Self-Determination Act of 2000. The agreement allows certain revenues, fees, penalties or miscellaneous receipts for both the Forest Service and the Bureau of Land Management, not to exceed \$100,000,000, to be distributed, to the maximum extent practicable, in the same amounts, for the same purposes, and in the same manner as were made to States and counties in 2006 under that Act. The agreement also appropriates \$425,000,000 of emergency funding to cover any shortfall for payments made under this section from funds not otherwise appropriated. Lastly, the agreement amends this Act to allow the resource advisory committees to function for another full year.

CHAPTER 4

DEPARTMENT OF HEALTH AND HUMAN
SERVICESCENTERS FOR DISEASE CONTROL AND
PREVENTION

DISEASE CONTROL, RESEARCH AND TRAINING

The conference agreement provides \$13,000,000, to remain available until September 30, 2008, for research to develop mine safety technology, including necessary repairs and improvements to leased laboratories as proposed by the Senate. The House bill did not include a similar provision.

The conference agreement includes a bill language provision, as proposed by the Senate, that quarterly progress reports on technology development shall be submitted to the House and Senate Committees on Appropriations, the House Committee on Education and Labor, and the Senate Committee on Health, Education, Labor and Pensions. The House bill did not include a similar provision.

The conference agreement also includes \$50,000,000 to remain available until expended for health monitoring and treatment of rescue and recovery workers who responded to the attacks of September 11, 2001 as specified under section 5011 (b) of the Department of Defense, Emergency Supplemental Appropriations to Address Hurricanes in the Gulf of Mexico, and Pandemic Influenza Act, 2006. These funds will continue baseline and follow-up screening, clinical examinations, long-term medical health monitoring, and analysis for rescue and recovery personnel who were exposed to toxins during their

service in response to the attacks, and support treatment services for those rescue and recovery personnel suffering illness or injuries related to their exposure. The Senate amendment proposed \$3,589,000 for this purpose. The House bill had no similar provision.

ADMINISTRATION FOR CHILDREN AND FAMILIES

LOW—INCOME HOME ENERGY ASSISTANCE

The conference agreement provides \$400,000,000 for the Low-Income Home Energy Assistance Program, including \$200,000,000 for State block grants and \$200,000,000 for the contingent emergency reserve. The Senate amendment included \$640,000,000 (equally divided between the State block grants and the emergency reserve) and the House bill included \$400,000,000 (also equally divided).

The conference agreement does not include bill language proposed by the House permitting a State, or other grantee, to obligate the block grant through September 30, 2008, to address home energy needs in the event of an emergency or for crisis intervention. The Senate amendment did not contain similar language.

OFFICE OF THE SECRETARY

PUBLIC HEALTH AND SOCIAL SERVICES
EMERGENCY FUND

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$625,000,000, to remain available until expended, for the Department of Health and Human Services to prepare for and respond to an influenza pandemic. The House bill included \$969,650,000 and the Senate amendment included \$820,000,000 for this purpose. These funds are intended to be used to purchase antivirals, establish high-volume domestic surge capacity through vaccine purchases and retrofitting of production facilities, and accelerate development of cell-based vaccine capabilities as proposed by the Administration.

The conference agreement includes bill language provisions proposed by both the House and Senate giving the Secretary various authorities to purchase goods for the stockpile, enter into contracts for the construction or renovation of privately owned facilities for the production of pandemic vaccine or other biologicals, and to transfer funds to other HHS accounts.

The conferees direct the Secretary to provide on a monthly basis to the Committees on Appropriations of the House of Representatives and the Senate a table identifying the obligation, as well as any unobligated balances, of funds received for pandemic influenza preparedness. The level of detail provided in the report should be at the program level identified in the table on the second page of the December 29, 2006, report to Congress on pandemic influenza preparedness spending. This table should be in addition to the semi-annual report to the House and Senate Committees on Appropriations that identifies the disbursement of pandemic influenza preparedness funds at the level of detail specified in the statement of managers accompanying the conference report for the Department of Defense, Emergency Supplemental Appropriations to Address Hurricanes in the Gulf of Mexico, and Pandemic Influenza Act, 2006.

COVERED COUNTERMEASURE PROCESS FUND

The conference agreement includes \$25,000,000, to remain available until expended, for the compensation fund established by the Public Readiness and Emergency Preparedness (PREP) Act. The House bill and the Senate amendment had proposed \$50,000,000 for this purpose.

GENERAL PROVISIONS—THIS CHAPTER (INCLUDING RESCISSIONS)

Sec. 3401. (a) The conference agreement includes three provisions rescinding unobligated balances from the Training and Employment Services account under the Department of Labor: \$3,589,000 from the 2001 Emergency Supplemental Appropriations Act for Recovery from and Response to Terrorist Attacks on the United States (Public Law 107-8); \$834,000 from the Emergency Supplemental Appropriations Act of 1994 (Public Law 103-211); and \$71,000 from the Emergency Supplement Act, 2002 (Public Law 107-117). The Department of Labor has indicated that these balances are no longer needed for their original purposes. The Senate amendment included only the rescission of \$3,589,000 from Public Law 107-38. The House bill did not contain any rescissions of Training and Employment Services funds.

(b) The conference agreement rescinds \$4,100,000 from unobligated balances available from the State Unemployment Insurance and Employment Service Operations account under the Department of Labor pursuant to Emergency Supplemental Act, 2002 (Public Law 107-117). Neither the House bill nor the Senate amendment included this rescission.

Sec. 3402. The conference agreement includes a provision similar to one proposed by the Senate providing \$8,594,000 for Safe and Drug-Free Schools to address youth violence and related issues in schools that are identified as persistently dangerous under section 9532 of the Elementary and Secondary Education Act of 1965. The House bill did not contain a similar provision.

CHAPTER 5 LEGISLATIVE BRANCH ARCHITECT OF THE CAPITOL CAPITOL POWER PLANT

The conference agreement includes \$50,000,000 to the Architect of the Capitol for utility tunnel repairs and asbestos abatement. The conferees agree to language that the Architect of the Capitol may not obligate any of the funds appropriated under this heading without approval of an obligation plan by the Committees on Appropriations of the Senate and House of Representatives, as proposed by the Senate. This is the same amount as proposed by the House for asbestos abatement and other improvements, instead of \$25,000,000 as proposed by the Senate for emergency utility tunnel repairs and asbestos abatement. The conferees direct the Government Accountability Office to assist the Committees on Appropriations in their oversight of the project through monitoring the Architect of the Capitol's strategic planning and use of resources related to this project.

CHAPTER 6 DEPARTMENT OF VETERANS AFFAIRS VETERANS BENEFITS ADMINISTRATION COMPENSATION AND PENSIONS

The conferees have not included funding in this account for a pilot program of benefits medical examinations as proposed by the House. The Senate bill contained no similar provision. Instead, the conferees have included funding under General Operating Expenses for authorized examinations to assist in claims processing.

VETERANS HEALTH ADMINISTRATION MEDICAL SERVICES

The conferees have agreed to provide \$466,778,000 for Medical Services, instead of \$414,982,000 as proposed by the House and \$454,131,000 as proposed by the Senate. The conference agreement includes \$228,982,000 for treatment of OIF/OEF veterans;

\$30,000,000 for at least one new Level I polytrauma care center; \$25,000,000 for prosthetics; \$100,000,000 for enhancement to mental health services; \$9,440,000 for the establishment of residential transitional rehabilitation programs; \$10,000,000 for additional caseworkers to facilitate seamless transition; \$20,000,000 for substance abuse treatment programs; \$20,000,000 for readjustment counseling efforts; \$10,000,000 for blind rehabilitation services; \$8,000,000 for polytrauma support clinic teams; and \$5,356,000 for additional polytrauma points of contact.

The conferees direct the Secretary to provide a report to the Committees on Appropriations of the House of Representatives and the Senate within 60 days of enactment of this Act detailing the number of Level I polytrauma centers to be opened and sites selected. The report should include an analysis of projected demand in areas of the country where Level I polytrauma centers are not readily accessible.

MEDICAL ADMINISTRATION

The conferees have agreed to provide \$250,000,000 for Medical Administration as proposed by the Senate instead of \$256,300,000 as proposed by the House.

MEDICAL FACILITIES

The conferees have agreed to provide \$595,000,000 for Medical Facilities as proposed by both the House and the Senate. The amount provided includes \$45,000,000 for facility and equipment upgrades at existing polytrauma care centers. In addition, \$550,000,000 is provided for non-recurring maintenance and is to be allocated in a manner not subject to the Veterans Equitable Resource Allocation model.

The conferees have included language in the bill which requires the Department to submit an expenditure plan within 30 days for the use of the non-recurring maintenance funding appropriated. In addition, the Department is to provide semi-annual updates on the expenditure of these funds.

MEDICAL AND PROSTHETIC RESEARCH

The conferees have agreed to provide \$32,500,000 for Medical and Prosthetic Research, instead of \$35,000,000 as proposed by the House and \$30,000,000 as proposed by the Senate.

DEPARTMENTAL ADMINISTRATION GENERAL OPERATING EXPENSES (INCLUDING TRANSFER OF FUNDS)

The conferees have agreed to provide \$83,200,000 for General Operating Expenses, instead of \$62,000,000 as proposed by the House and \$46,000,000 as proposed by the Senate. The amount provided includes \$20,000,000 for disability medical examinations. Additionally, \$60,750,000 is to be used for the expenses related to hiring and training additional disability claims processors and \$1,250,000 is to be for digitization of military service records.

The conferees are concerned that effective management structures and inter-agency coordination processes must be in place to ensure that services of the Department of Veterans Affairs are provided in a timely and efficient manner, especially to returning OEF/OIF veterans. In particular, the conferees are concerned about the bureaucratic process many OEF/OIF veterans are encountering in transition from active duty to veteran status. Therefore, the conferees have included funding for the Secretary of Veterans Affairs to award a grant or contract to the National Academy of Public Administration, an independent, non-partisan organization, which was chartered by Congress to assist Federal, State, and local governments in improving their effectiveness, efficiency, and accountability. Such grant or contract shall be to

conduct a study of Department management structures in place to provide health care to veterans and active duty personnel of OEF/OIF, and benefits to veterans of OEF/OIF. The study also should look at the organization and management structure of the Department as it relates to providing health care and benefits to the approximately 7.9 million veterans currently enrolled in the system. The conferees direct the Department to execute such grant or contract no later than 30 days after enactment of this Act.

INFORMATION TECHNOLOGY SYSTEMS

The conferees have agreed to provide \$35,100,000 for Information Technology Systems, instead of \$35,000,000 as proposed by the House and \$36,100,000 as proposed by the Senate. The amount provided includes \$15,100,000 for electronic data breach remediation and prevention as proposed by the Senate. Also included in the bill is \$20,000,000 for system improvements for processing OIF/OEF veterans.

CONSTRUCTION, MAJOR PROJECTS

The conferees have included no funding for Construction, Major Projects, as proposed by the Senate instead of \$23,800,000 as proposed by the House.

CONSTRUCTION, MINOR PROJECTS

The conferees have agreed to provide \$326,000,000 for Construction, Minor Projects, instead of \$260,000,000 as proposed by the House and \$355,907,000 as proposed by the Senate. Of the amount provided, up to \$36,000,000 may be used for construction of polytrauma residential transitional rehabilitation facilities.

GENERAL PROVISIONS—THIS CHAPTER

The conferees have agreed to include a general provision which directs the Congressional Budget Office to report on the future funding projections for costs associated with providing necessary health care to OIF/OEF veterans, as proposed by the Senate.

The conferees have not included a general provision, proposed by the Senate, which would direct the Department of Veterans Affairs to contract with the National Academy of Public Administration for a study of management practices. The conferees have included similar language in the General Operating Expenses paragraph of the bill.

The conferees have included a general provision which permits the Secretary of Veterans Affairs to transfer facilities to the State of Texas, as proposed by the Senate.

The conferees have included a modified general provision, proposed by the Senate, which provides for contributions to the Department of Defense/Department of Veterans Affairs Health Care Sharing Incentive Fund to remain available until expended.

TITLE IV—OTHER MATTERS CHAPTER 1

DEPARTMENT OF AGRICULTURE FARM SERVICE AGENCY SALARIES AND EXPENSES

The conference agreement provides \$37,500,000 for 'Salaries and Expenses' of the Farm Service Agency instead of \$48,000,000 as proposed by the House and \$75,000,000 as proposed by the Senate.

The conference agreement includes language that these funds shall only be used for network and database/application stabilization to address immediate needs identified by the Department. The conferees direct the Secretary to provide a monthly update to the Committees on Appropriations of the House of Representatives and the Senate on the progress of this project, including usage of funds as proposed by the Senate.

The conferees note that the Farm Service Agency computer system that is responsible

for processing payments for all Farm Bill programs administered by the Farm Service Agency has been experiencing periodic shut-downs due to capacity overload, causing the efficiency of thousands of Farm Service Agency county office employees to decrease dramatically. The conferees are aware that a plan to upgrade this system is being developed by USDA. The conferees direct the Secretary to submit to the Committees on Appropriations of the House of Representatives and the Senate, and the agriculture authorizing committees of the House of Representatives and the Senate a report that has been approved by the Office of Management and Budget and reviewed by the Government Accountability Office. The report shall include: (1) an enterprise architecture; (2) an Information Technology Human Capital Plan; (3) a capital investment plan for implementing the enterprise architecture; (4) a description of the information technology capital planning and investment control process; and (5) a spending plan. The spending plan shall include each specific project funded, key milestones, all funding sources for each project, details of annual and lifecycle costs, and projected savings or cost avoidance to be achieved by the project.

GENERAL PROVISIONS—THIS CHAPTER

Section 4101. The conference agreement includes language regarding the Food and Drug Administration as proposed by the House.

Section 4102. The conference agreement includes language to prevent the Food Safety and Inspection Service (FSIS) from implementing a risk-based inspection program in any location until the USDA Office of the Inspector General (OIG) has studied the program, including a review of the adequacy of the FSIS plan for evaluating pilot projects, and reported its findings to FSIS and the Committees on Appropriations of the House of Representatives and the Senate; and FSIS has addressed and resolved issues identified by the OIG.

The conferees emphasize that FSIS should continue other activities related to the implementation of the program, such as data collection and public meetings. The conferees recognize that moving forward with the risk-based inspection program without comprehensive and accurate scientific data to rank product risk and an unbiased system for determining establishment risk would have the potential of jeopardizing public health.

The conference agreement does not include a rescission of unobligated balances from the Trade Adjustment Assistance program as proposed by the Senate.

The conference agreement does not include language regarding the implementation of the Wetlands Reserve Program and the Farmland Protection Program as proposed by the Senate.

The conference agreement does not include language regarding the Rural Utilities Service Guaranteed Underwriting Program as proposed by the Senate.

CHAPTER 2

GENERAL PROVISIONS—THIS CHAPTER

Section 4201. The Committee has included a provision designating all Federal employees at the National Energy Technology Laboratory as inherently governmental.

Section 4202. The Committee has included a provision related to the Bonneville Power Administration.

CHAPTER 3

GENERAL PROVISIONS—THIS CHAPTER

1, 2008". The Senate bill did not include similar language.

Section 4302. The conference agreement includes a provision proposed by the Senate (section 3301) requiring the components of the Office of National Drug Control Policy to remain as they were on October 1, 2006, and requiring approval of the Committees on Appropriations to implement a reorganization. The House bill did not include similar language.

Section 4303. The conference agreement includes language proposed by the Senate (section 3304) authorizing the National Archives and Records Administration to spend fiscal year 2007 funds for activities of the Public Interest Declassification Board. The House bill did not include similar language.

Section 4304. The conference agreement includes language proposed by the Senate (section 3307) to provide flexibility to reallocate \$1,000,000 in fiscal year 2007 funds for the District of Columbia Courts. The House bill did not include similar language.

Sec. 4305. The conference agreement includes modified language proposed by the Senate (section 3307) requiring that the Treasury Department, in coordination with the Securities and Exchange Commission and in consultation with the Departments of State and Energy, prepare and submit a report, with a classified annex as necessary, to Congress concerning companies known to conduct business operations relating to natural resource extraction in Sudan. The language further directs the General Services Administration to notify Congress of any existing Federal contracts with the identified companies. The House bill did not include similar language.

Section 4306. The conference agreement modifies a provision proposed by the Senate (section 3308) extending the availability of \$4,500,000 in fiscal year 2007 funding for the General Services Administration, Office of Inspector General. The House bill did not include similar language.

Section 4307. The conference agreement includes language proposed by the Senate (section 3309) which allows the District of Columbia to use funds made available for foster care improvements according to a spending plan submitted to Congress within 60 days. The House bill did not include similar language.

The conference agreement does not include language proposed as Senate section 3302 concerning funds made available in section 21075 of the Continuing Appropriations Resolution, 2007.

The conference agreement does not include language proposed as Senate section 3305 to require the resubmission of a fiscal year 2007 spending plan by the General Services Administration within 7 days.

The conference agreement does not include language proposed as Senate section 3310 to authorize a cost of living adjustment for Federal judges and justices for fiscal year 2007.

CHAPTER 4

DEPARTMENT OF HOMELAND SECURITY

GENERAL PROVISIONS—THIS CHAPTER

(INCLUDING RESCISSIONS OF FUNDS)

Section 4401.—The conferees modify a provision proposed by the Senate to address a funding shortfall in the United States Coast Guard "Retired Pay" appropriation. The House bill contains no similar provision. The conferees note that estimates for this appropriation have been woefully inaccurate over the past several years and direct the Coast Guard to take immediate action to improve

the quality and reliability of the data used in its estimates. Within 45 days after the date of enactment of this Act, the Coast Guard shall submit a report on steps being taken to improve the accuracy of its estimates for the "Retired Pay" appropriation. In addition, the conferees direct the Coast Guard to submit quarterly information to the Committees on Appropriations on the use of unobligated balances made available by this Act to address the projected shortfall in this appropriation, as well as updated estimates for fiscal year 2008.

Sec. 4402.—The conferees modify provisions proposed by the House and Senate regarding Coast Guard contracting and the Integrated Deepwater Systems program.

Sec. 4403.—The conferees include a provision proposed by the Senate regarding Coast Guard's Civil Engineering Program. The House bill contains no similar provision.

Sec. 4404.—The conferees modify a provision proposed by the House and rescind \$30,900,000 from unobligated balances made available pursuant to section 505 of Public Law 109-90. The House bill rescinds \$89,800,000. The Senate bill contains no similar provision. The conferees note the Department's poor planning and slow use of funds available pursuant to section 505. In addition, to address an urgent operational need, the conferees provide \$30,000,000 for Coast Guard "Acquisition, Construction, and Improvements" to help mitigate the patrol boat operational gap. No additional appropriation was included in either the House or Senate bills. The Coast Guard is currently operating 25,000 hours, or twenty-five percent, short of its needed patrol boat mission hours. This "gap" means that undocumented migrants, drugs, and other unlawful activity are less likely to be intercepted by the Coast Guard. Funding provided in this section is to be used to acquire four new Coastal Patrol Boats, as was requested by the Department of Homeland Security via official correspondence on March 11, 2007. This includes the production, warranty, training, spares, outfitting and project management costs for all four patrol boats. The Coast Guard has indicated these new Coastal Patrol Boats will partially relieve the burden on existing 110' patrol boats until a replacement patrol boat can be placed in service. Currently, Florida-based 110' patrol boats average more than 5,500 mission hours annually which can be performed by the smaller 87' Coastal Patrol Boats operating out of the three primary Florida ports of Tampa, Miami and Key West. This will allow the 110' patrol boats currently operating in these areas to be utilized farther south where undocumented migrant traffic and drug smuggling are more prevalent. In addition, the conferees provide \$900,000 for the Under Secretary for Management to award a grant or contract to the National Academy of Public Administration to compare the Department of Homeland Security's reported senior career and political staffing levels and senior career training programs with those of similarly structured cabinet-level agencies.

Sec. 4405.—The conferees include a provision proposed by the House regarding limitations on lead system integrators. The Senate bill contains no similar provision.

The conferees do not include a provision proposed by the House regarding Border Patrol checkpoints. The Senate bill includes no similar provision.

CHAPTER 5

GENERAL PROVISIONS—THIS CHAPTER

Sec. 4501 includes a technical correction to the Bureau of Indian Affairs language in P.L. 110-5 as recommended by the Senate in Title III, section 3501 so the Bureau may pay certain contract support costs. The House had a similar provision in section 4502.

Sec. 4502 includes a technical correction to P.L. 110-5 as recommended by the Senate in Title III, section 3502, to allow the Indian Health Service to pay certain contract support costs and transfer \$7,300,000 from "Services" to "Facilities". The House had a similar provision in section 4503.

Sec. 4503 provides a technical correction to P.L. 110-5 designating the funding level for the Save America's Treasures program of the National Park Service, Historic Preservation Fund which was recommended by both the House and the Senate.

Sec. 4504 modifies a provision recommended by the Senate in Title III, section 3504 that allows the Fish and Wildlife Service to use land acquisition funds for land conservation partnerships authorized by the Highlands Conservation Act of 2004. The House had no similar provision.

The conference agreement does not include the proposal in Senate Title II, Chapter 6, section 2601 to reauthorize the Secure Rural Schools and Community Self-Determination Act of 2000. The conference agreement deals with this issue in Title III.

The conference agreement does not include Senate recommended sections 3505, regarding the Water Environment Research Foundation, and 3506 related to EPA grant funding.

CHAPTER 6

DEPARTMENT OF HEALTH AND HUMAN SERVICES

NATIONAL INSTITUTES OF HEALTH, NATIONAL INSTITUTE OF ALLERGY AND INFECTIOUS DISEASES

(TRANSFER OF FUNDS)

The conference agreement includes language proposed by the House transferring \$49,500,000 from the National Institutes of Health, National Institute of Allergy and Infectious Diseases, to the Office of the Secretary, Public Health and Social Services Emergency Fund, to support advanced research and development of biodefense countermeasures. This work is to be conducted by the Assistant Secretary for Preparedness and Response, consistent with the authority provided in the Pandemic and All-Hazards Preparedness Act. The Senate amendment included similar language.

OFFICE OF THE DIRECTOR

(TRANSFER OF FUNDS)

In addition to the funds transferred above, the conference agreement includes language which transfers \$49,500,000 from the National Institutes of Health, Office of the Director, to the Office of the Secretary, Public Health and Social Services Emergency Fund. These funds would further increase funding for advanced research and development of biodefense countermeasures, consistent with the authority provided in the Pandemic and All-Hazards Preparedness Act. Neither the House bill nor Senate amendment included this component of the advanced development transfer.

NATIONAL COUNCIL ON DISABILITY

SALARIES AND EXPENSES

The conference agreement includes \$300,000, to remain available until expended, for expenses related to meeting the requirements of the Post-Katrina Emergency Management Reform Act, pertaining to emergency preparedness planning to address the needs of individuals with disabilities. Neither the House bill nor the Senate amendment included this provision.

GENERAL PROVISIONS—THIS CHAPTER

(INCLUDING TRANSFERS OF FUNDS AND RECISSION)

Section 4601. The conference agreement includes language authorizing the transfer of \$7,000,000 from the Pension Benefit Guaranty

Corporation to the Employee Benefits Security Administration (EBSA) for the development of the EFAST2 electronic Form 5500 filing system, as proposed by both the House bill and Senate amendment. These funds, together with not less than \$5,000,000 available from the fiscal year 2007 appropriation for the EBSA, shall be available for obligation for the EFAST2 system until September 30, 2008. The House bill required that \$7,500,000 from EBSA's fiscal year 2007 appropriation be used for the EFAST2 system and allowed the funds to be available for obligation for two years, while the Senate amendment proposed funding of not less than \$5,000,000, without extended availability.

The conferees expect EBSA to contribute an additional amount of \$2,500,000 from its fiscal years 2007 and 2008 appropriations for this system, generated by one-time cost savings proposed in the last two years' budget requests. The conferees also expect EBSA to minimize any potential negative impact of the project's financing on enforcement activities, and compliance outreach and education programs. The conferees request a briefing on EBSA's plans for the EFAST2 system prior to the announcement of the availability of funds for its development.

Sec. 4602. The conference agreement includes a provision amending the Continuing Appropriations Resolution, 2007 that designates \$9,666,000 for the Women's Bureau within the appropriation for "Departmental Management, Salaries and Expenses" under the Department of Labor. Neither the House bill nor the Senate amendment included this provision.

The conferees are concerned that the progress being made by International Labor Organization's International Program to Eliminate Child Labor (IPEC), which is aimed at eradicating the most abusive forms of child labor could be jeopardized by the Department of Labor's plans not to make the United States contribution to this program for FY 2007. Last May the ILO reported that the number of exploited children fell by 11 percent between 2000 and 2004, and that the organization believes that if the current pace of decline were to be sustained, the global commitment to stop child labor could feasibly eliminate most of the worst forms of this practice within 10 years. This is a long-standing program with a unique approach that relies on the obligations of ILO Member States under the requirements of ILO Convention 182 on the Worst Forms of Child Labor. The conferees are concerned that if the United States—the largest contributor—pulls its funding commitment to this program, that action would set back the global partnership and have real consequences in specific countries where IPEC projects are underway.

The conferees believe the Department has the flexibility to continue this program under its own procurement guidelines. The conferees expect that any alternative approach should yield equal or better results. Therefore, the conferees direct the Department to submit a report to the Committees on Appropriations of the Senate and the House of Representatives that justifies any proposed approach for the use of these funds by providing information to demonstrate that the alternative approach will be as effective as the IPEC tripartite program before any of these funds are obligated to alternative entities.

Sec. 4603. The conference agreement includes a provision that designates \$23,000,000 for poison control centers within the appropriation for "Health Resources and Services" under the Department of Health and Human Services. Neither the House bill nor the Senate amendment included this provision. The conferees direct HRSA to submit a revised

operating plan within fifteen days of enactment of this Act to the Committees on Appropriations of the House of Representatives and the Senate with respect to any changes to that plan that result from this provision.

Sec. 4604. The conference agreement rescinds \$1,000,000 from the Office of the Secretary in the Department of Health and Human Services as proposed by the Senate and deletes a Senate provision pertaining to Public Law 108-406. The House bill did not include these provisions.

The conferees are concerned about delays in receiving technical assistance from the Department of Health and Human Services. There have been several instances in which the Department has not responded to Committee requests for information in a prompt, timely fashion. In addition, after repeated complaints, communications between the Department and the Committee staff continue to be a major problem. The conferees direct the Department to expedite future information requests through the Office of Resources and Technology and request that the Office of Legislative Affairs and the Office of Resources and Technology coordinate their efforts to keep Committee staff fully informed on matters concerning the Committee.

Sec. 4607. The conference agreement includes bill language permitting the Chief Executive Officer of the Corporation for National and Community Service (CNCS) to transfer not more than \$1,360,000 from "National and Community Services Programs, Operating Expenses" to CNCS "Salaries and Expenses" as proposed by the Senate. The House bill did not include a similar provision.

The conferees direct that this funding be taken from the Innovations, Assistance, and Other Activities budget line to complete the Service Center Consolidation Plan rather than the National Service Trust.

Sec. 4608. The conference agreement includes a provision proposed by the Senate modifying section 1310.12(a) of title 45 of the Code of Federal Regulations with respect to Head Start transportation vehicles. The conferees expect that the ultimate regulation governing the safety of Head Start transit vehicles will be consistent with the National Highway Traffic Safety Administration study on occupant protection on Head Start Transit vehicles. The conferees intend the interim rule to be in effect only until the Department has reviewed such study and has made any necessary revisions to be consistent with the study outcomes.

The conference agreement does not include language proposed by the Senate which would have created exceptions for two hospitals in Minnesota and Mississippi so that they could be certified as Medicare critical access hospitals. The House bill contained no similar provision.

The conference agreement does not include a provision proposed by the Senate rescinding \$2,000,000 from student aid administration in the Department of Education and providing \$2,000,000 for a grant to the University of Vermont or the provision also proposed by the Senate repealing the former provision. The House bill did not include similar provisions.

The conference agreement does not include a provision proposed by the Senate to create an authorization of appropriations for a grant to the Delta Health Alliance. The House bill did not contain a similar provision.

The conference agreement does not include a provision proposed by the House extending the availability of a portion of funds previously appropriated for veterans employment and training activities with the Department of Labor. The Senate amendment

did not include this provision. The conferees agree that the House provision is not needed because the Department already has the authority to incur obligations for this program through December 31, 2007.

CHAPTER 7

LEGISLATIVE BRANCH HOUSE OF REPRESENTATIVES

PAYMENT TO WIDOWS AND HEIRS OF DECEASED MEMBERS OF CONGRESS

The conference agreement provides \$165,200 for payment to Gloria W. Norwood, widow of Charles W. Norwood, late a Representative from the State of Georgia, as proposed by the House. Inasmuch as this item relates solely to the House, the managers on the part of the Senate, at the request of the managers on the part of the House, have receded to the amendment of the House.

CHAPTER 8

DEPARTMENT OF STATE INTERNATIONAL COMMISSIONS INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO CONSTRUCTION.

The conference agreement does not include an appropriation to augment funding in fiscal year 2007 for the Rio Grande Flood Control System Rehabilitation project, as proposed by the House. The Senate included no similar provision.

GENERAL PROVISIONS—THIS CHAPTER

The conference agreement does not include a provision proposed by the Senate (sec. 3901) concerning the United States-China Economic and Security Review Commission. The House bill included no similar provision.

Sec. 4801. Technical Amendment—The conference agreement includes a provision clarifying the availability of certain funds in fiscal year 2007, making a technical change to the composition of the Board of the Middle East Foundation and clarifying the availability of funding in fiscal year 2007 for the Foreign Military Financing Program, as proposed by the Senate. The House bill included the same provision regarding the Middle Foundation.

Sec. 4802. Funding Limitation—The conference agreement includes a provision proposed by the House (sec. 4802) concerning the modification of funding limitations on the Department of State's Bureau of Legislative Affairs for fiscal year 2007. The Senate bill included no similar provision.

The conferees direct that funding for the Bureau not exceed \$11,383,000, the amount requested in the fiscal year 2007 budget.

CHAPTER 9

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

OFFICE OF FEDERAL HOUSING ENTERPRISE OVERSIGHT

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$6,150,000 for the Office of Federal Housing Enterprise Oversight instead of \$7,568,000 as proposed by the House and \$4,800,000 as proposed by the Senate. The conference agreement includes language as proposed by the Senate that reduces this appropriation to zero dollars through offsetting collections.

GENERAL PROVISIONS—THIS CHAPTER

The conference agreement includes a general provision proposed by the Senate regarding a pilot program on cross-border trucking between the United States and Mexico. The House did not include a similar provision.

The conference agreement modifies a general provision proposed by the House that al-

lows funds provided in fiscal year 2007 for the National Transportation Safety Board to be used to make capital lease payments due in fiscal year 2007. The Senate did not include a similar provision.

The conference agreement includes a general provision proposed by both the House and the Senate to clarify the fiscal year 2007 levels of funding for the Tenant-Based Rental Assistance account.

The conference agreement includes a general provision proposed by the House to allow housing projects subsidized with project-based certificates to be renewed under the Project-Based Rental Assistance program. The Senate did not include a similar provision.

The conference agreement does not include a provision proposed by the House making a technical change to a proviso regarding the "Moving to Work" program.

The conference agreement does not include a provision proposed by the Senate regarding asset-based management because the Department of Housing and Urban Development has administratively changed the compliance date to October 1, 2007.

TITLE V

AGRICULTURAL ASSISTANCE

The conferees direct the Secretary to adhere to all existing federal statutes, program regulations, executive orders and program guidance or directives to ensure that compensation is provided only where appropriate and allowed under such regulations, orders or guidance and that the integrity of the program is maintained without exception.

Section. 5101. The conference agreement includes language regarding Crop Disaster Assistance providing financial assistance to producers on a farm who incurred qualifying quantity or quality losses for a 2005, 2006 or 2007 crop before February 28, 2007 due to damaging weather or any related condition.

The conference agreement does not include a separate provision for sugar beet and sugar cane disaster assistance as proposed by the Senate. Qualifying losses are covered under the Crop Disaster Assistance provision.

Sec. 5102. The conference agreement includes language providing financial assistance through the Livestock Compensation Program and the Livestock Indemnity Program for livestock losses and livestock indemnity payments to producers on farms that have incurred livestock losses between January 1, 2005 and February 28, 2007.

Sec. 5103. The conference agreement provides \$20,000,000 for the Emergency Conservation Program as proposed by the House instead of \$35,000,000 as proposed by the Senate.

The conference agreement does not include a separate provision for the tree assistance program as proposed by the Senate. Qualifying losses are covered under the Emergency Conservation Program provision.

Sec. 5104. The conference agreement includes language regarding payment limitations.

Sec. 5105. The conference agreement includes provisions regarding the administration of the foregoing sections.

Sec. 5106. The conference agreement includes language regarding the National Dairy Market Loss Payment program.

Sec. 5107. The conference agreement provides \$20,000,000 instead of \$95,000.00 as proposed by the Senate for payments to dairy producers for losses in counties designated as disaster areas.

Sec. 5108. The conference agreement includes language to clarify the use of claims adjusters.

Sec. 5109. The conference agreement does not provide funding for the Small Business Economic Loss Grant Program. Instead, the conference agreement provides \$21,000,000 to

carry out activities authorized under section 2281 of the Food, Agriculture, Conservation and Trade Act of 1990 (42 U.S.C. 5177a) to provide emergency grants to assist low-income migrant and seasonal farmworkers. The conferees are aware that storms and other natural disasters have caused serious disruption to local economies and individuals who are involved in agriculture but will not otherwise qualify for assistance under this title.

Sec. 5110. The conference agreement includes language regarding the Conservation Security Program as proposed by the Senate. In fiscal year 2007, producers hold previously executed contracts with the Department of Agriculture on which they have relied for undertaking various conservation measures. As a consequence of current federal funding levels, many producers will be unable this fiscal year to recover costs already incurred that are associated with their contract performance. The conference agreement will allow the Department of Agriculture to meet the intended outcome of contracts executed between the Department and the affected producers, and to take other measures as appropriate under existing authorities.

Sec. 5111. The conference agreement provides \$30,000,000, as proposed by the Senate, to cover necessary costs related to the administration of programs, of which \$8,500,000, as identified by the Farm Service Agency, is for information technology upgrades to assist in carrying out the agricultural disaster assistance provisions of this title.

Sec. 5112. The conference agreement includes language to clarify participation in a crop insurance pilot program.

The conference agreement does not provide funding for fresh spinach growers and first handlers as proposed by the House.

The conference agreement does not include language regarding payments to fresh spinach growers and first handlers as proposed by the Senate.

TITLE VI

ELIMINATION OF SCHIP SHORTFALL AND OTHER MATTERS

DEPARTMENT OF HEALTH AND HUMAN SERVICES

CENTERS FOR MEDICARE AND MEDICAID SERVICES

STATE CHILDREN'S HEALTH INSURANCE FUND

The conference agreement includes an appropriation of \$650,000,000 to eliminate anticipated State Children's Health Insurance Program (SCHIP) funding shortfalls for fiscal year 2007 for 14 States. The House bill provided \$750,000,000; the Senate amendment included an appropriation of such sums as necessary.

Sec. 6001. The conference agreement includes language similar to provisions in both the House bill and Senate amendment which amend the authorizing law to describe the States considered to be in shortfall.

Sec. 6002. The conference agreement includes language which prohibits the Secretary of the Department of Health and Human Services from taking action in the next year to finalize or otherwise implement a proposed regulation affecting the Medicaid program or any regulation restricting payments for graduate medical education under

the Medicaid program. The Senate amendment had similar language prohibiting implementation of the rules for two years. The House bill did not contain a similar provision.

The bill includes a provision to offset the estimated cost of blocking the Medicaid rules in this section. This provision: (1) requires States, as a condition of receiving Federal matching funds in Medicaid, to require all providers to use tamper-proof prescription drug pads when writing prescriptions for Medicaid beneficiaries; and (2) extends certain Pharmacy Plus waivers under the Medicaid program. The Senate amendment contained a different offset, which increased the required rebate for drugs sold through the Medicaid program. The House bill contained no similar provision.

TITLE VII

FAIR MINIMUM WAGE AND TAX RELIEF

SUBTITLE A—FAIR MINIMUM WAGE

The conference agreement includes provisions to increase the Federal minimum wage in the United States to \$7.25 an hour over two years as proposed by both the House and the Senate. The conference agreement also provides for Federal minimum wage increases of \$0.50 per hour, beginning 60 days after enactment, and annually thereafter, in the Commonwealth of the Northern Mariana Islands and American Samoa, until their minimum wage reaches that of the United States. In addition, the agreement requires that the Department of Labor, through the Bureau of Labor Statistics, transmit a report to Congress assessing the impact of wage increases in the Commonwealth of the Northern Mariana Islands and American Samoa not later than 32 months after enactment.

The House bill included a phased increase of \$0.50 upon enactment, and \$1.00 annually thereafter, in the Federal minimum wage for both the Commonwealth of the Northern Mariana Islands and American Samoa until their minimum wage reaches that of the United States, while the Senate amendment provided a phased increase of \$0.50 upon enactment, and \$1.00 annually thereafter, in the Federal minimum wage for the Commonwealth of the Northern Mariana Islands, but no increase in American Samoa.

SUBTITLE B—SMALL BUSINESS INCENTIVES

The conference agreement modifies small business and work opportunity provisions in the Senate amendment that provide enhanced compliance assistance for small businesses, authorize a program for small business child care grants at the Department of Health and Human Services, require a study on certain aspects of the Earned Income Tax Credit, authorize renewal grants for women's business centers, and require a report under the Buy American Act. The House bill did not contain similar provisions.

SUBTITLE C

SMALL BUSINESS TAX INCENTIVES

The conference agreement modifies provisions in the House bill and Senate amendment regarding small business incentives. The conference agreement extends the Work Opportunity Tax Credit ("WOTC") through August 31, 2011, later than the House proposed but sooner than the Senate proposed. The conference agreement expands WOTC to include more veterans with service-connected disabilities, "high risk youth," and employees in "outward migration counties." The House and the Senate had proposed various enhancements.

The conference agreement enhances the tip credit for certain small businesses by freezing the minimum wage level for purposes of calculating the credit. The House had similar language, but the Senate did not.

The conference agreement permanently waives both individual and corporate alternative minimum tax limitations on WOTC and tip credits. The House had similar language, but the Senate did not.

The conference agreement extends small business expensing under section 179 through 2010 and increases the expensing limit from the current \$112,000 to \$125,000, as the House had proposed. The Senate had similar language.

The conference agreement extends and expands several tax provisions affecting Gulf Opportunity Zones affected by hurricanes Katrina, Rita and Wilma. The agreement modifies language proposed by the Senate. The House did not include similar language.

The conference agreement makes several changes to the treatment of Subchapter S corporations. The Senate had proposed similar language. The House did not include similar language.

The conference agreement raises the age of children whose unearned income is taxed as their parents' income. The House and Senate both had similar language.

The conference agreement modifies IRC section 6404(g) which provides for suspension of interest and certain penalties, from the current 18 months after filing to 36 months. The House had proposed 22 months and the Senate had proposed repeal of suspensions.

The conference agreement increases the penalty for bad checks and money orders, creates a new penalty on claims for refunds filed without any reasonable basis, and expands the penalties on tax return preparers. Both House and Senate proposed similar language.

The conference agreement increases the estimated tax payments due July through September, 2012 for corporations with assets in excess of \$1 billion. The House had similar language, but the Senate did not.

CONTRACTING REFORM

The conference agreement does not include language proposed by the House (as title V of the House bill) relating to federal contracting reform.

NOTIFICATION OF EMERGENCY LEGISLATION

The congressional budget resolution (H. Con. Res. 95) agreed to by Congress for fiscal year 2006, and both the House and Senate versions of the congressional budget resolution for fiscal year 2007 include provisions relating to the notification of emergency spending. These provisions require a statement of how the emergency provisions contained in the conference agreement meet the criteria for emergency spending as identified in the budget resolution.

The conference agreement contains emergency funding for fiscal year 2007 for the global war on terror, hurricane recovery in the gulf coast region, emerging threats to homeland security, pandemic influenza prevention, unmet veterans' healthcare needs, and agriculture disaster relief. The funding is related to unanticipated needs and is for situations that are sudden, urgent, and unforeseen, specifically the global war on terror and thy hurricanes of 2005. These needs meet the criteria for emergencies.

EARMARKS

Pursuant to clause 9 of rule XXI of the Rules of the House of Representatives, this conference report contains no congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9(d), 9(e), or 9(f) of rule XXI.
